

# Sharing the Big Picture on Transit in Metro Atlanta

A webinar:  
**Wednesday, June 12, 2013**  
**1:30pm to 2:30pm**

## Sharing the Big Picture on Transit in Metro Atlanta Webinar - Wednesday, June 12, 2013 - 1:30pm to 2:30pm

There are many transit operators in the region, with service into and out of more places than you may realize. In addition, there are resources for last-mile connectivity, discounted fares, pre-tax benefits and support that make transit options more practical for more workplaces ... even those outside the city center. This webinar will offer employers, property managers and commuters the opportunity to hear from transit service experts representing many of the different regional and county providers, including MARTA, GRTA, Gwinnett County Transit and Cobb Community Transit. There will be a special segment where each provider will show a map of their service area and describe briefly the new developments they are working on.

Employers, property managers and commuters will also want to hear about the "Dump the Pump" event taking place June 17-21 in the Atlanta region, as well as details on local shuttles that help move employees from transit stations to workplaces, how the Commuter Choice program can leverage payroll tax savings and more.
