

New Solid Waste Management Plan

Recyclable Items

Unincorporated Gwinnett County is part of a new **Solid Waste Management Plan**, making solid waste service more efficient, cost effective, and environmentally friendly. The state of Georgia requires all of its counties to work toward reducing the solid waste deposited in land fills, and this plan will accomplish that goal. Please note this does not apply to city residents.

Under the new plan, homeowners will have the opportunity to **recycle many different items** as part of their regular solid waste pickup service.
