**HERRINGTON ROAD TO GET
NEW BRIDGE, SIDEWALKS**

(Lawrenceville, Ga., July 3, 2008) - Gwinnett County will replace a bridge, add sidewalks on both sides and widen a stretch of Herrington Road to include a center turn lane. The work zone west of Lawrenceville and south of State Route 316 will run from Old Norcross Road to Oakland Road.

Replacing the bridge over a Fork Creek tributary will require closing the road for about six months. The County has included incentives for earlier completion in the \$4.8 million contract. Gary's Grading and Pipeline, Inc., was the lowest of eight bids for the project.

"This is another road improvement and bridge replacement project funded by the voter-approved 2005 SPLOST program," said District 1 Commissioner Lorraine Green. She added that Herrington Road carries a lot of north-south traffic from Lilburn and Snellville to the Gwinnett Center and Discover Mills area.
