USE OF CONST.:	STORM DAMAGE REPAIRS TO INCLUDE REBUILDING DECK (12X16) - 10% damage, open for building and electrical only. entire two car garage has been demolished except for the foundation, no apparent damage to house. see photos in documents. Contractor stated that their engineer recommended that they demolish the existing floor slab and removed the cap blocks from the existing CMU foundation in order to completely grout the cells of the CMU wall. there is an entirely new electrical system installed including the meter/main disconnect and service panel. there is no damage to the existing branch circuits, however there is a large junction box installed where the original home runs were connected to the old service panel. we should ensure that this box is large enough for all the conductors.
