Dear Jocelyn Leitch,

Summary of Request:

The applicant proposes an over 1,300 SF accessory structure in the rear yard of a 1.25-acre property.

Response to pre-application meeting minutes:

- The secondary building / accessory structure is over 1000 square feet per Sec. 230-120.12.B.
- 230-120.12.B. The secondary building / accessory structure are also over 1300 square feet. With this Proposed Special Use Permit we are asking for variances for the existing secondary building to remain.
- Sec. 230-120.9, Accessory buildings over 500 SF must meet the 20' minimum setback requirement adjacent to all property lines. The secondary building / accessory structure has a 15' minimum setback only on one side being the right elevation.
- Sec. 230-120.12.A.i, Exterior walls shall be finished with brick or stone or with materials and colors similar to that of the principal building. With this proposed Special Use Permit we are asking for a variance for the material used on exterior of secondary building / accessory structure. The colors are similar to that of the principal building.
- Sec. 230-120.12.A.iii, the secondary building / accessory structure roofing materials and colors match that of the principal building. The secondary building / accessory structure roof pitch does commensurate with the roof pitch of the principal building.
- Sec. 230-120.12.A.iv, the secondary building / accessory structure height does not exceed 12 feet as measured from average grade level to average height of a pitched roof.
- Please see dimensioned drawing to scale in this application, all accessory structures on the property are included as it shows the cumulative square footage exceeds 1,300 square feet. With this Proposed Special Use Permit we are asking for variances for the existing secondary building to remain.

In 2006 when we purchased the primary property 2555 Suncrest Ct. it came with 2 sheds and over an acre of wooded land. We started clearing timber and making way to rebuild the one accessory structure in the rear yard of our 1.25-acre property. The primary use of the secondary building / accessory structure is for storage of tools necessary for the upkeep of the detention pond and the property landscape.

When filing the permit we thought the process had been approved and because of that misunderstanding we proceeded with the completion of the secondary building / accessory structure.

Several years after completion of the secondary building / accessory structure we found out that the permit process had not been fully executed.

We are asking for a Variance for the secondary building / accessory structure, we have depleted funds where we have put a lot of time and effort over the years caring for development of our property and landscape.

The property value has increased an estimated \$20,000.00 because of the secondary building. With this Special use permit the increased property value can be noted to solidify an official increased property value to our property 2555 Suncrest Ct.

Without the variance or proposed special use permit this would cause undue hardship. We are recovering from Co-Vid impact of where we continue to be under duress with a disability in our household.

Sincerely, **Alvongie & Minister Jones**
