

BARN CAT PROGRAM

If you have a barn or a stable ...

... you can save a cat!

Gwinnett County Animal Welfare and Planned PETHood of Georgia are asking for your help with feral cats that are coming into the shelter each day. These cats are typically shy or fearful of people and they are much happier living a life roaming around and catching critters, providing natural pest control for a barn or stable.

Our Barn Cat Program gets these cats out of the shelter and into a situation where they can live life to its fullest.

Gwinnett
Animal Welfare
& Enforcement

All pets adopted from Gwinnett County Animal Welfare are spay/neutered, have a microchip and are vaccinated.
