Service Districts Explained

Your tax bill will look a lot different this year. State law requires that cities and counties operate under a service delivery strategy (SDS) agreement that defines the services to be provided by each jurisdiction and sets out

how those services are funded. The County's new SDS agreement with the cities created four new service districts.

Watch this brief video or visit www.gwinnettservicedistricts.com to learn more

about the service districts and what this means for your property.

Gwinnett County's government access cable television channel is available online, on demand, and on the government access cable channels of Charter, Comcast, and AT&T - U-verse. These cable systems provide the channel at no cost to the County along with funding for video production and distribution.
