

Dear Homeowners Association Member:

Gwinnett County Government kindly asks for your assistance in spreading the word about a new way to check your local commute.

Please help us inform your neighbors by including the article below through your homeowners association newsletter, website, and e-mails and by talking to your friends and family.

Be smart and check your commute

Want to know what the traffic is like at US 78 and SR 124 before you leave for work? Gwinnett County's Department of Transportation has established a new program called **GCsmartcommute** that allows you to view live feeds of 16 different intersections in Gwinnett to check your drive time before you leave the house for work or a special event.

Watch GCsmartcommute 24/7 at www.gcsmartcommute.com and on TVgwinnett through your government access cable channel weekdays from 6:30am - 8:30am and 4:00pm - 6:00pm.

Sales tax program funds traffic cameras

Approximately 90 intersection cameras are currently operating with a total of 145 cameras to come in the future. All cameras are installed, maintained, and operated by Gwinnett County, and the equipment and operating system were funded through SPLOST (Special Purpose Local Option Sales Tax) [programs](#) to monitor arterial and corridor traffic flow for real-time adjustments from the Gwinnett Traffic Control Center. The camera system will continue to grow as long as funding from SPLOST and other operating funds are provided.

GC Smart Commute camera locations

- SR 20 at SR 316
