Upcoming workshop helps residents care for backyard streams

The Gwinnett County Department of Water Resources and the Gwinnett Environmental and Heritage Center are hosting a free workshop that will cover the basics of caring for water bodies in residential backyards. Topics will include nonpoint source pollution prevention, invasive plant species, rainwater harvesting, erosion control techniques, healthy riparian and buffer zones, stream monitoring, and more. Attendees from unincorporated Gwinnett County, the city of Lilburn, or the city of Peachtree Corners may qualify for a maximum 5 percent credit toward their stormwater utility fee for the following year. The workshop will be held on September 27 from 1:00pm to 3:00pm on the Gwinnett Environmental and Heritage campus, located at 2020 Clean Water Drive in Buford.
