**MEMORANDUM**

**TO:** Developers, Designers, Consultants, Contractors and Other Interested Parties

**FROM:** Kathy S. Holland, Department Director, Planning & Development

**RE:** Storm Sewer CCTV Requirement

**DATE:** January 27, 2017

In order to implement the County's Stormwater Systems and Facilities Installation Standards and Specifications (SSFISS), and specifically 3.9.5.3 "Pipe Installation", which provides for the County to complete CCTV inspection of developer installed storm sewers, prior to the approval of a final plat or the issuance of a certificate of occupancy, the Department of Planning and Development will begin collecting TV fees for all storm sewer piping. All proposed project plans submitted beginning February 28, 2017 will be required to pay TV fees for all storm sewer piping.

Only the following projects will not be charged for storm pipe TV.

- Those projects with valid permits;
- Projects where the Subdivision Development Permits (SDP) or Commercial Development Permits (CDP) were submitted and reviewed between January 1, 2016 and February 27, 2017. Permits must be obtained meeting all required plan review time limits.

The latest fee schedule may be found on our website at:
