

Electrical Power Temporary Connection Request

(Not Applicable to Single-Family Residences and Multifamily Structures)

This request is submitted to obtain authorization from Gwinnett County Department of Planning and Development for the temporary connection of power to the electrical conductors located on the property at the following address in accordance with Gwinnett County Construction Code Section 114.2:

Address: _____ Project: _____

Building Permit Number: _____ Space/Suite: _____

As a condition of this request, we agree to the following:

- 1. The electrical power temporary connection per this request is valid for a period of ninety (90) days from the date of the passed inspection by the County building inspector...
2. We assume all responsibility and liability for any damage or injury due to temporary connection of electrical power...
3. Occupancy is not authorized during the temporary connection of power and unauthorized occupancy will result in immediate disconnection of electrical service.
4. We relieve Gwinnett County and its inspectors, and the utility company from any liability for damage or loss from requiring disconnection of electrical service.
5. An electrician with a state of Georgia electrical contractor license shall be responsible for code compliance of the above referenced project.
6. A court summons shall be issued due to violations of any of the agreements set forth herein and we agree to act as the responsible agents of our respective companies in responding to said summons.
7. Any violation of the above will be taken into consideration regarding future Electrical Power Temporary Connection Requests.

Provide the following information in order to determine whether or not the electrical equipment for which temporary power connection is requested complies with the requirements of the National Electrical Code (NEC 110-9, 110-10,) applicable to the available short-circuit current.

Available Fault Current at line side of service disconnect: _____

Main panel overcurrent device: Type _____ Size _____ Interrupting Rating _____
