“ATTACHMENT I”

AN ORDINANCE TO REQUIRE THE ANNUAL
REGISTRATION OF TELECOMMUNICATION TOWERS

The Code of Ordinances of Gwinnett County is hereby amended by deleting the existing Section 108-36 and replacing it as follows:

(1) On or before May 1st of each calendar year, the owner of any telecommunications tower shall register such tower with the Director of the Gwinnett County Department of Planning and Development on a form (or via electronic means) substantially similar to that attached hereto as Exhibit “A”. The initial annual registration shall identify such telecommunications tower by tax parcel number, physical street address, and/or GIS coordinates, and shall describe all structures and equipment on site associated with such telecommunications tower. Annually thereafter, each subsequent registration shall identify any transfer of ownership of such tower, and/or any modifications to such tower which occurred during the preceding calendar year.

(2) For all telecommunications towers which were constructed more than ten (10) years prior to the submittal of the annual registration, at least once every three (3) years the owner of such tower shall submit certification to the Director that such tower was inspected and that a registered professional engineer has determined that no signs of defect, disrepair, or other hazardous condition exist.

(3) Any telecommunications tower owner which owns more than twenty (20) towers that are subject to subsection (2) shall be deemed to be in compliance with its requirements so long as all of such tower owner's towers which are more than ten

(10) years old are inspected within three years of the first deadline for registration under this ordinance.

(4) The annual registration fee for each telecommunications tower shall be \$100.00 for the first registration year and \$50.00 per tower per year thereafter.
