

GWINNETT SAFE COMMUNITIES

Working Together for a Safer Gwinnett

Gwinnett Safe Communities is a collaboration between the Gwinnett County Police Department and community improvement groups, schools, churches, businesses, and residents. Community partners provide access to cameras, license plate readers, and other technology to assist GCPD, the Department of Fire and Emergency Services, and other county agencies with responding to emergency situations more efficiently and effectively. Once an incident is reported, the Situational Awareness and Crime Response Center leverages data collected from nearby devices to inform first responders in real time.

IBM®-Powered Technology to Connect to Partner's Video Management Systems

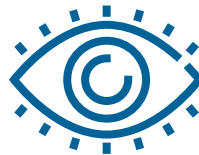

Incident-Triggered Monitoring Only

Aid in Crime Reduction

No Intrusion to Your Privacy

No 24/7 Monitoring
