Without additional fees or payments the County shall cooperate with Contractor in completing the Initial Service List and shall provide that electronic stored information in the County's possession or control that is or may be helpful to Contractor in compiling the Initial Service List. Thereafter, each month along with its invoice (as provided below), Contractor shall provide an electronic list containing the addresses and total number of Service Units, the Owners of which have provided Contractor with written notice that the Service Unit is no longer occupied, Collection Services need to be discontinued and the Cart(s) and Bin picked up or the Service Unit has subsequently become occupied or reoccupied, Collection Services needed to be commenced or recommenced. No later than the second (2nd) day of each calendar month, the Contractor shall submit to the County a statement of the Service Fees and Service Fee Adjustments the Contractor believes to be due and owing to Contractor for Collection Services rendered by the Contractor during the previous calendar month (the “Statement of Service Fees”). Such Statement of Service Fees shall list monthly payments due the Contractor based on the Service Fee, Service Fee Adjustments, and upon the calculation of Service Units determined by the Contractor pursuant to section 4.1 and this section 4.2. The statement must include:

- 4.2.1** The number of Service Units calculated in accordance with sections 4.1 and 4.2;

No later than the tenth (10th) day of each calendar month, the County shall pay to the Contractor the amounts set forth in the Statement of Service Fees in accordance with

this section. Within thirty (30) days of receipt of the Statement of Service Fees issued by the Contractor, the County shall notify the Contractor of any dispute it may have with respect to the Contractor's Statement of Service Fees

5. SERVICE FEE ADJUSTMENTS

5.1 Service Fee CPI-U Adjustment

The CPI-U shall be used to calculate Service Fee Adjustments subject to the provisions of sections 4.1.1 and 4.1.2 above. During the Term, the Service Fee shall be adjusted based upon the Adjustment Factor beginning on January 1, 2020. The Adjustment Factor shall be equal to 70 percent (70%) of the increase, if any, in the inflation index, CPI-U, which occurred during the preceding Base Year. The Contractor's then current Service Fees for each Collection Service shall be adjusted by multiplying each by the Adjustment Factor. The Service Fee CPI-U Adjustment will be paid in accordance with section 4.1 above. Provided, however, and subject to section 5.4 below, Service Fee Adjustments for increases in the CPI-U during the Initial Term shall not exceed 21% in the aggregate.

5.2 Service Fee Fuel Adjustment

During the Term, the Service Fee shall be adjusted for increases and decreases in the average cost of No. 2 Diesel Ultra Low Sulfur Fuel ("Fuel") as reported by the U.S. Department of Energy, Energy Information Administration, www.eia.doe.gov, Lower Atlantic East (PADD 1C) No 2 Diesel Ultra Low Sulfur (0-15ppm) Retail Sales by All Sellers, including taxes (the "Index") for each Base Year over or under the Base Cost per Gallon of Fuel of \$2.76 per gallon. Each "Base Year" shall have the same meaning as set forth in section 4.1.2.

5.2.1 Determination of Annual Fuel Usage and Fuel Adjustment

For the purpose of calculating the Service Fee Fuel Adjustment, Fuel Usage for the Initial Term shall be calculated as follows:

On or before April 15, 2019, all contractors providing Collection Services in Gwinnett County pursuant to the Residential Solid Waste Collection and Disposal and Collection of Residential Single Stream Recovered Materials contract (the "Hauler Contracts" or "Hauler Contract"; each contractor with a Hauler Contract shall be referred to in this section 5.2 as "Haulers" or "Hauler") shall report to the County the number of gallons of Fuel used in providing Collection Services under the Hauler Contracts by each Hauler in that First Contract Year through March 31, 2019 (July 1, 2018 through March 31, 2019). The Fuel Usage for the First Contract Year through March 31, 2019 shall be annualized by dividing the total Fuel Usage for all the Haulers by the number of completed months 9 and multiplying the result by 12, the result shall be referred to as the gallons of Fuel used in the First Contract Year. Notwithstanding the amount of fuel actually consumed by the Haulers, for all Contract Years, Fuel Usage shall mean the gallons of Fuel used in the First Contract Year by all Haulers, as determined above, reduced by 1.5% cumulative each Contract Year ("Annual Fuel Usage"). To determine Service Fee Fuel Adjustment for each Hauler, for each Base Year, the Base Costs per gallon of Fuel

(\$2.76) will be subtracted from the daily average cost of Fuel per gallon for each Base Year as reported on the Index. The positive or negative result of the immediately preceding calculation will then be multiplied by the applicable Annual Fuel Usage for the Contract Year that terminates within the Base Year. The result of this calculation will be divided by the average number of Service Units within the County receiving Collection Services from all the Haulers for the First Contract Year to obtain the average Per Unit Fuel Adjustment. The total Annual Fuel Adjustment for each Hauler for each Base Year shall be obtained by multiplying the average Service Units in that Hauler's Service Area during the First Contract Year by the average Per Unit Fuel Adjustment to obtain the Annual Fuel Adjustment for each Hauler. The Annual Fuel Adjustment for each Hauler will be paid in equal monthly installments (1/12) as provided in section 4.1.2. Except as otherwise provided in section 5.4 below, for the purpose of this calculation only, the average number of Service Units within the County and the average number of Service Units in each such Hauler Service Area will remain fixed during the Initial Term.

The above calculation is represented by the following Formula:

A	Annual Fuel Usage which is consumption of Fuel during the First Contract Year for all Haulers, reduced by a cumulative 1.5% per year for each Contract Year after the First Contract Year.
B	The positive or negative result from subtracting the Base Cost per gallon of Fuel (\$2.76) from the daily average of Fuel during each Base Year as reported on the Index.
C	Average number of Service Units in the County during First Contract Year.
D	Average number of Service Units in each contractor Service Area during the First Contract Year.

$A \times B =$ Global Fuel Adjustment for all Haulers for each Base Year (GFA)

$GFA \div C =$ Per Unit Fuel Adjustment (PUFA)

$PUFA \times D =$ Annual Fuel Adjustment for each Hauler (HAFA)

$HAFA \div 12 =$ Monthly Service Fee Fuel Adjustment for each Hauler paid under section 4.1.

Exhibit 2 attached hereto provides an illustration using assumption of how and when the Service Fee Fuel Adjustment is calculated.

5.2.2 CAP

Except as otherwise provided in section 5.4 below, during the Initial Term the Service Fee Fuel Adjustment shall not exceed \$2.00 per gallon over \$2.76.

5.3 Other Service Fee Adjustments

The County agrees that Contractor may also increase rates from time to time, to adjust for the following: increases in operational costs or expenses incurred by the Contractor as a result of a “Change In Law,” whether imposed retroactively or prospectively. A Change In Law means any amendment to, or promulgation of any federal, state, county, city, or local statute, regulation, or ordinance after the date of this Contract that imposes, changes, modifies, and/or alters requirements upon: (i) performing the Collection Services; (ii) the operation of the applicable Disposal Facility, Transfer Station or Processing Facility; or (iii) the disposal of Residential Municipal Solid Waste, Residential Single-Stream Recovered Materials, Yard Trimmings, Bulky Waste and/or White Goods, or which statute, regulation, or ordinance requires the Contractor to seek either an amendment or modification to, or reissuance of any required permits, licenses, certificates of public convenience and necessity, approval or authorization issued by any governmental body entitling the Contractor to perform the Collection Services. Change in Law shall include fees, surcharges, or other charges imposed by ordinance or agreement for a waste disposal facility by a host local government pursuant to the provisions of O.C.G.A. 12-8-39(d). The term Change in Law shall not include an amendment to Gwinnett County Solid Waste Ordinance or the Gwinnett County Solid Waste Management Plan.

5.4 Undue Hardship

Contractor may provide notice to the County that the caps on the Service Fee CPI-U Adjustments (section 5.1) or the caps on the Service Fee Fuel Adjustment (section 5.2) are overly burdensome. Upon such notice, the County will negotiate in good faith to amend in a commercially reasonable manner how Service Fee Adjustments are calculated or the caps are adjusted. Furthermore, if at any time after the first Contract Year the Service Area is modified, County and Contractor agree to negotiate in good faith to modify how fuel usage is determined for the purpose of calculating the Service Fee Fuel Adjustment under section 5.2.

Notwithstanding the foregoing, neither the Contractor nor the County shall settle or compromise any claim without the consent of the other party; provided, however, that such consent to settlement or compromise shall not be unreasonably withheld. After receipt of notice from the Contractor, the County shall acknowledge receipt of such notice and shall promptly provide the Contractor with notice of what corrective action has or shall be taken by the County, within a reasonable time, in light of the circumstances. Failure to promptly provide acknowledgement of receipt of notice, or notice of planned corrective action, shall constitute an event of Default by the County.
