

## Multifamily Toilet Rebate Program

As of January 1, 2012, Gwinnett County Department of Water Resources extends its high-efficiency toilet rebate program to multifamily customers. **Apartment, condominium and townhome communities** that are Gwinnett County water customers may qualify for a **rebate up to \$25,000** if the following criteria are met:

- Property owner/manager has a water and sewer account with DWR.
- Property owner/manager has established a 12 month history of on-time water bill payments and the balance is consistently paid in full.
- The property was built in, or prior to, 1993.
- Toilets currently installed at the property use more than 1.6 gallons per flush.
- Property owner/manager agrees to a pre-installation toilet inspection to be conducted by DWR staff before the toilet retrofit project begins.
- The replacement toilets selected are WaterSense certified models that use 1.28 gallons per flush or less.
- Property owner/manager provides proof of purchase (original receipts) and proof of installation (plumber/contractor statement or invoice).
- Property owner/manager transports used porcelain toilets to an approved porcelain recycler or drops the toilets at DWR Central Facility for recycling (documentation required).
- Property owner/manager agrees to a post-installation verification visit by DWR.
- Property owner/manager completes a multifamily toilet rebate application (which includes all documentation listed above).

If the above criteria are met, the property owner/manager will receive a \$100 rebate for each qualifying toilet replaced with a new 1.28 gallon-per-flush or less EPA WaterSense toilet, **up to a maximum of 250 toilets** per service address. The exact rebate eligibility amount will be determined during the pre-inspection.

Rebates will be applied to the water account(s) for the property. **Rebate funds are guaranteed for three months from the date of the pre-installation inspection.**
