Recovering from Tropical Storm Irma
September 8, 2017

Cleaning up after a storm can be a complicated and multi-faceted process, ranging from dealing with insurance companies for home repairs to disposing of downed trees. Here are some tips to help Gwinnett County residents and businesses make the recovery period a little less painful.

Crisis Cleanup Hotline
A hotline has been set up following the two recent hurricanes to match local volunteer agencies to residents who need help cleaning up their homes. Call 800.451.11954 if you need assistance.

Insurance
The County does not provide financial assistance to private property owners for recovery from a natural disaster. Homeowners should work with their homeowners insurance companies for the cost of property repairs.

- **Report the loss as soon as possible to your insurer.** Have your policy number handy, and provide a general description of the damage. Write down the adjuster's name, phone number and work schedule as soon as you have them.
- **Prepare a list.** Keep damaged items or portions of them until the claim adjuster has visited. Photograph or video the damage to document your claim. Prepare a list of damaged or lost items for your adjuster.
- **Keep receipts.** If you need to relocate, keep records and receipts for all additional expenses. Most insurance policies cover emergency living arrangements.
- **Return claim forms.** After your insurance company has been notified of your claim, they must send you the necessary claim forms within a certain number of days. Fill out and return the forms as soon as possible. If you do not understand the process, be sure to ask questions and write down the explanation.

Damage
The Gwinnett County Fire and Emergency Services Department wants everyone to stay safe and offers the following tips for dealing with property damage.
