MEMORANDUM

TO: Chairwoman
District Commissioners

THROUGH: Lindsey Jorstad
Director of Community Services

FROM: Rick Morris
Deputy Department Director

SUBJECT: 2026 Subsidy Agreements for Healthcare Initiative – Chronic Care Assistance

DATE: April 15, 2026

ITEM OF BUSINESS

Approval/authorization for the Chairwoman to execute contracts with Hope Clinic, Inc., Good Samaritan Health Center of Gwinnett, Inc., Four Corners Primary Care Centers, Inc., and Behavioral Health of Georgia, Inc. in the total amount of $550,000.00 for chronic care assistance services for the period January 1, 2026 through December 31, 2026.

BACKGROUND AND DISCUSSION

In an effort to reduce the strain on our emergency medical and hospital systems, the Board of Commissioners approved a FY2026 General Fund allocation of $550,000.00 to external agencies to enhance chronic care assistance availability. Funding allocations were determined through a competitive application process of qualified healthcare providers.

As a result of this process, the following agencies were selected for funding of their chronic care management programs: Hope Clinic, Inc., Good Samaritan Health Center of Gwinnett, Inc., Four Corners Primary Care Centers, Inc., and Behavioral Health of Georgia, Inc. for their chronic care management programs. These projects directly impact the demand on hospital and emergency facility resources by preventing the worsening of illness, exacerbation of disease, and inevitable hospitalizations when illness is left untreated.

The attached agenda item requests authorization for the Chairwoman to execute 2026 Subsidy Agreements for the above-mentioned services. I respectfully request your consideration and approval of this agenda item at the May 5, 2026 meeting of the Board of Commissioners. If you have questions regarding this agenda item, please contact me at 770.822.8863.

Hope Clinic in the Community

The Hope Clinic was founded in 2002 by Dr. William B. Martin when he realized the need for medical care for the uninsured in Gwinnett County. The Hope Clinic is a Christian Internal Medicine, nonprofit that's mission is to provide the highest quality medical care to the uninsured, uninsurable and the under insured, those with limited access or no access to healthcare and treat each patient with the utmost respect and kindness without regard to race, language, national origin, or ability to pay. The Hope Clinic specializes in treating the chronically ill in our community and has served Gwinnett County for 24 years. Our mission is to carry on Dr. Martin's vision for patients to always be managed by the same provider through compassionate relationship-based programs. It is crucial to keep chronic diseases under control.

In 2023 after Dr. Martin passed away, Dr. Michael Sineway, our Medical Director, joined the clinic to help carry on Dr. Martin and the Hope Clinic's legacy. Dr. Michael Sineway has added to the value of what we do for the community and our patients. He is not only an Internal Medicine provider but practiced medicine as a pulmonologist for 40 years. Providers are knowledgeable and experienced providers in Internal Medicine and treating chronic illnesses.

The Hope Clinic's dedication to uninsured patients who suffer from Chronic Diseases is the best offered in Gwinnett County. With hired staff, patients have access to the number of recommended office visits for their illnesses, deeply discounted labs and medical tests onsite, access to prescription assistance programs, the partnership with Salveo Integrative Health to treat mental healthcare needs, access to specialty providers and a dedicated after hour's answering service. Patients experience top quality care impacting their quality of life.

The clinic is a vital part of Gwinnett's healthcare safety net and supplies half of the available charitable primary capacity in the county. Over the years the Hope Clinic has become a main referral point for local hospitals to refer uninsured patients to manage their chronic care needs in an outpatient setting, taking the strain off the emergency management services and local hospital. Dr. Sineway and the team of providers at the Hope Clinic specialize in internal medicine and chronic care.

Hope Clinic provides an affordable alternative to the hospital emergency room for physician care needs of the uninsured and underserved in our community. The uninsured and underinsured who suffer from chronic conditions like diabetes, cardiovascular disease, pulmonary diseases and metabolic syndrome often fall through the cracks of the medical system, are not diagnosed or properly treated for their conditions or frequent the emergency room for medical care because they feel they have nowhere to go.

The Latest Statistics for Our Community

14.7% of hospitalizations in Gwinnett County, GA. were preventable. Sources: Georgia OASIS 2022

17.7% Hospital discharges were preventable in Georgia Source: Georgia OASIS 2022

According to Georgia Health Initiative Impact of Federal Policy Changes to Georgia's Health Care Landscape report released in November 2025 the "H.R.1 (legislation otherwise known as the "One Big Beautiful Bill Act" and hereinafter H.R.1) was passed into law, introducing changes to the health care landscape across the country, particularly in Medicaid and the Affordable Care Act (ACA) Marketplaces. Nationally, the law is projected to lead to $1 trillion in federal health care funding cuts and, in combination with the planned expiration of the current enhanced Marketplace advanced premium tax credits (eAPTCs), almost 15 million more Americans are expected to become uninsured in the next ten years. H.R.1's projected impact on Georgia is significant. The law's Medicaid financing and Marketplace—known as Georgia Access—provisions will have far-reaching effects on Georgia's coverage landscape, health care delivery system, and broader economy. Taken together, H.R.1 and the expiration of the eAPTCs are projected to increase the number of uninsured Georgians by nearly half a million and reduce funding flowing into Georgia's health care delivery system by more than $50 billion by 2034."

75.3% of all emergency room visits in 2024 resulted in hospital admissions in Gwinnett County. The average hospital stay in 2024 was 6.1 days. 16.8% of Gwinnett County's population in 2024 were uninsured- www.georgiadata.org

Cost is the most commonly cited reason for being uninsured. In 2023, 63.2% of uninsured adults ages 18-64 said they were uninsured because coverage is not affordable. Other reasons included not being eligible for coverage (27.0%), not needing or wanting coverage (26.6%), and signing up being too difficult (23.9%). -KFF 2024

Uninsured patients are often billed 2 to 4 times the insured/negotiated rate because they do not benefit from insurer discounts.- www.georgiawatch.org.

Many patients simply cannot afford insurance. Health insurance premiums in Georgia vary by household size and plan type. Single coverage averages $485, while family plans average $1,330 monthly. -KFF analysis of data from Healthcare.gov, state rate review websites, state plan finder tools, and state provided data for 2026

Many hospitalizations could have been avoided with proper proactive healthcare services. With a growing number of uninsured patients expected in 2026, there is a greater need for access to the Hope Clinic's Chronic Care Management Program to take the strain off our emergency room departments.

Meeting the Urgent Needs for the Vulnerable and Uninsured by providing a proactive and preventative approach:

The care of chronically ill patients as a process and project was begun by the Hope Clinic in the fall of 2013 and subsequently expanded over the last 13 years. The overall effort for chronic care includes

data management which is a constant evaluation and reevaluation of the progress of the individual and the group. Our medical providers work jointly with support staff to identify the information.

The average cost of a 3-day hospital stays for the uninsured is around $30,000 according to www.healthcare.gov for 2023. Even if these numbers were drastically reduced (70 or 80%) by sliding scale by the hospital system, the cost would still be astronomical. So, it becomes imperative that Gwinnett County Hospitals and Emergency Management Services partner with local nonprofits who provide chronic care management services that can be received in outpatient settings to reign in these costs to the community as a whole.

On average patients at the Hope Clinic are seen 5.1 times a year to manage costly diseases for a fraction of the cost if they were to go to the ER or be admitted. These savings are passed on to both the patient and the healthcare system, alleviating the strain on our local hospitals and emergency services. Hope Clinic patients are always managed by the same provider through our relationship-based programs. It is crucial to keep chronic diseases under control.

The Hope Clinic provided 11,880 office visits to 2,178 patients in 2025. Last year, $2,093,968.98 was the total amount of donated services written off. Hope Clinic's statistics for patient income levels for poverty in 2025.

- 89% of Hope Clinic patients are between the ages of 20 -- 64 and unable to afford health coverage.
- 93 % of Hope Clinic uninsured patients live at/ or below the poverty line. The poverty line for a family of four is $33,000.
- 41 % are female head of household.

The Hope Clinic is already experiencing an increase in 2026 of new uninsured patients seeking care.

Chronic Care Management Program-Our Goals

The Chronic Care Management Program aims to prevent avoidable ER visits and hospitalizations through proactive, relationship-based care. Individualized treatment plans outline required visits and labs. Education on illness management, nutrition, exercise, and medications strengthens patient understanding. Our Patient Assistance Program connects uninsured patients with medications and remote monitoring allows clinicians to track blood pressure and glucose readings in real time. Onsite lab, x-ray, ultrasound and lung-function testing ensure access to essential diagnostics without costly outside referrals. Additional services include mental health support through Salveo Integrative Health and the William B. Martin Fund, which assists in covering unaffordable specialty care with medical related costs.

Chronic diseases such as diabetes, heart disease, and hypertension are among the leading causes of preventable death and disability in our community. For uninsured and underserved populations, these conditions often go unmanaged due to limited access to consistent, high-quality care. A chronic care management grant is not just a funding opportunity--it's a lifeline.

Hope Clinic is uniquely positioned to address this crisis. With a grant dedicated to chronic care management, we can:

Implementation Plan

Patients receive ongoing care throughout the year. The following implementation timeline is per patient and represents the work that is done for and with each individual patient who is a member of the chronic care program.

- Physician Visits (3-4/year) Comprehensive evaluations, diagnosis, medication management, and care-plan updates. Review of lab results and treatment adjustments.
- Lab Testing (3-4/year) Monitoring chronic conditions and treatment effectiveness.
- CCM Follow-Up calls or appointments-Goal setting, nutrition guidance, education on diagnoses, and activity recommendations tailored to patient ability.
- Annual Wellness Visit for elderly with Board-Certified Pharmacists -Complete overview of health, medication reconciliation, coordination with outside specialists, and enhanced symptom reporting. This ensures providers have complete, up-to-date information, improving care quality and increasing appointment availability.

Measuring Success

We effectively measure patient outcomes using our electronic medical records system. The Hope Clinic believes that this chronic care management program offers a crucial solution for managing costly diseases within the community. The program's success is evaluated based on:

- The number of new patients enrolled each year. Hope Clinic anticipates that additional patients will join the Chronic Care Management program through various grants received for the year.
- We anticipate that 1 out of 5 will receive additional services paired with the program if needed. Last year, 1043 additional services in total were provided to patients, showing continual improvements in patient outcomes within our Chronic Care Management Program. These services deliver lifesaving medical tests and care to patients onsite, who might otherwise not receive care due to financial hardships or low income.
- The dollar amount of services donated to the community for uninsured and low-income patients. These services are offset and covered by grants and donations.
- Since the program's inception, patients who are 80% compliant with visits, phone call visits, labs, and medications are expected to achieve their chronic care management goals. Medical goals are measured by lab tests and improvements in overall health, while patient goals are partially measured by improvements in the patient's subjective sense of well-being.
- Hope Clinic maintains detailed demographic data, including patients' county of residence and income levels, to better understand and address community health needs.

- Expand Access to Care-- Provide ongoing, coordinated treatment plans for patients who would otherwise fall through the cracks.
- Reduce Emergency Room Visits-- By managing conditions proactively, we prevent costly and avoidable hospitalizations.
- Empower Patients-- Equip individuals with the education, tools, and support they need to take control of their health.
- Strengthen Community Health--Improve overall outcomes by addressing disparities and promoting equity in care delivery.
- Support Holistic Healing--Integrate physical, mental, and social wellbeing into every patient interaction.

The ripple effect is profound. Healthier individuals lead to stronger families, more resilient communities, and reduced strain on public health systems. Investing in chronic care management is not just a medical intervention--it's a statement of values. It affirms that every life matters, and that compassionate, continuous care should be accessible to all.

Since each patient is a unique "project" in and of themselves, we are providing an example individual plan that is in use every day at Hope Clinic. This relationship-based program manages existing patients and new patients proactively, ensuring success through the following guidelines and features:

- Treatment plans are made for each patient's unique chronic diagnosis, based on healthcare standards established by our physicians and supporting medical staff. These plans include office visits and lab tests throughout the year; The average patient is seen 5 times within the year. On average each patient is seen every 2-3 months.
- We help patients set achievable nutrition and lifestyle goals, which are organized and tailored to the individual. As well as education and guidance are provided to enhance understanding of their illness, nutrition, suggested lifestyle changes, the importance of exercise, and medication management for chronic illness.
- Hope Clinic's well-established Patient Assistance Program connects patients with pharmaceutical companies that offer medications at no cost to the uninsured and underinsured.
- Remote patient monitoring is implemented for elderly patients care. Blood pressure monitors and/or glucometers are shipped to patients, who then take their readings several times a day. These readings are sent to a central database, allowing our doctors and NPs to monitor and be notified of results.
- Annual Wellness Visits are conducted on site by our retained Board-Certified Pharmacists for patients with chronic conditions such as diabetes and heart disease, enhancing care coordination and clinical decision-making through detailed information gathering.
- Hope Clinic offers onsite, a lab, x-ray, ultrasound and PulmOne testing (lung function screening) that compliments treating people with chronic illness ensuring patients have the care and test they need, avoiding expensive tests done at outside facilities that the patient otherwise cannot afford. Each patient is screened for mental health service needs.

There is a tremendous need for Chronic Care Management Programs through non-profit healthcare organizations to treat and manage low income and uninsured patients with chronic illnesses who lack access to care. Chronic Illnesses can be managed in outpatient settings therefore taking the strain off the Gwinnett County Hospitals and Emergency Rooms.

Proposed Project Will:

- Increase capacity of Hope Clinic to see patients.
- Ensure that 2,500 patients will be seen in primary care, most for multiple visits, rather than emergency rooms, alleviating the strain on our community health system.
- Project will supplement existing services provided by the Hope Clinic

Hope Clinic intakes of new patients are referred by local hospital ER's and Specialists after discharge from hospitalization as a resource for chronic care illnesses to be managed for ongoing care and prevent unnecessary strain on their resources. Local Area Non-Profits, Churches, Supporters and existing patients are the next biggest referral system.

The program is designed to interact with each patient as often as possible. We build relationships with every patient. We specialize in creating individualized treatment plans that cover all medical issues and diseases. Hope Clinic's internal medicine physician and providers are trained to treat the whole system and multiple diseases in the same patient. These providers are specifically trained and knowledgeable in chronic care conditions. Funding will allow us to increase our numbers and further meet the needs of the community.

The Good Samaritan Health Centers of Gwinnett operates two full-time safety clinics in Gwinnett County that offer a full scope of medical and dental services to meet the multiple needs of the working poor and uninsured. We are the only full-time charitable safety-net clinic in Gwinnett County with medical and dental care under one roof. Our direct services include primary and preventative family medicine, chronic disease prevention and management, women's health, adult and pediatric dental care, dispensary assistance, laboratory and imaging services, and vaccinations. With two locations offering evening and weekend hours to provide medical and dental care 52 hours a week, Good Sam Gwinnett renders healthcare to over 2,000 patient visits each month. We require additional staff to meet the increasing demand, particularly in our dental program, our highest-demand line of service. Offering such a broad scope of services at an affordable cost allows our patients to have timely access to the affordable quality care they need, effectively removing inequitable barriers to access healthcare for uninsured families and those living below the poverty level. **Therefore, we respectfully request funding for operating overhead related to providing Affordable Access to Healthcare, including primary and preventative chronic disease care, fluctuating seasonal labor costs, provider salaries, and the evening and weekend hours, which provide an alternative to emergency services during non-standard business hours.** Our labor budget alone is $3,503,400 and we are well poised to expend all grant funds by December 31

Project Description

Provide a detailed and comprehensive narrative about your project and your experience with the project. Be sure to identify how this potential funding will supplement and/or increase your capacity to provide healthcare services thus reducing the strain on the County's emergency management services and hospital systems.

Since opening in June 2005, we have steadily grown to meet the explosive growth of our community. We operate two full-service charitable care clinics that serve the northeast metropolitan Atlanta area and have provided care for more than 60,000 patients with nearly 350,000 patient visits.

In 2025, two clinics provided direct services to 5,380 unique patients, with 20,651 patient visits, a value of care of $11,048,285 and an economic impact of more than 30 million. We currently have 53 employees and 104 volunteers donating 7,751 hours, estimated at $275,513,000.

More than 90% of our patients are immigrants and minorities seeking a path to wellness while working low-income jobs to support their families. Representing eighty countries of origin, our patients are primarily Hispanic (81%), married (43%), women (65%), about 40 years old (range: 1-98), with a median household income of $26,608 supporting 3.8 individuals (70% FPL). Eighty-seven percent are employed in low-wage jobs to support their families.

With your support, Good Sam Gwinnett will continue to serve this vulnerable, at-risk population and maintain its capacity (evening and weekend hours, accommodating dental emergencies, and accepting referrals from the ER to reduce the strain on Gwinnett County emergency rooms and hospital systems). Known in the community as a reliable source of health and dental care, Good Sam Gwinnett also helps reduce emergency room visits. Our willingness to offer extended and weekend operating hours, as well as accept walk-ins, including accommodating unscheduled appointments and dental emergencies, positions us to serve as both a primary care and urgent care clinic. Our clinic hours provide uninsured individuals with an alternative to overwhelmed and overcrowded emergency rooms, especially during the pandemic and now, with the economic hardships our patients are facing, further creating more equitable access to a healthcare environment.

As the largest full-time charitable medical and dental services provider under one roof in Gwinnett County, Good Sam Gwinnett continues to provide in-person primary care and general dentistry to low-income and uninsured patients amid a downturn in the economy, with prices rising and job losses increasing. We are continuing to see an increase in patients seeking care for chronic diseases (Hypertension, Diabetes Mellitus, Asthma) and dental care (tooth decay, trauma) who, for various reasons (cost, COVID fear, access, etc.), had "put off" seeing a doctor and are experiencing uncontrolled blood pressure, high H1c levels, and unchecked asthma and oral pain. These patients must be seen multiple times to manage their chronic disease effectively. Good Sam Gwinnett's patients with chronic diseases can access provider examinations, lab tests, and necessary medications. 60% of our patient population has chronic illness. Chronic disease patients will also have access to our dental services side of the clinic. Studies have shown a critical link between your oral health and general systemic health. Periodontal disease is associated with cancer, diabetes, heart disease, hypertension, and obesity. Because Good Sam Gwinnett treats the “whole person” and serves as a healthcare home to our community, our providers refer our patients with chronic diseases to dental care. Our dental patients have access to comprehensive oral evaluation and continuity of care in a timely and appropriate manner. Without Good Sam Gwinnett, these patients turn to the emergency room to manage their chronic conditions and oral health trauma.

Because of our network of community partners and providers, and our relationship with Northside Hospital Gwinnett, Good Sam Gwinnett plays a vital role in diverting inappropriate ER use in Gwinnett County. In 2025, we received 95 referrals from the Gwinnett Medical Center emergency room. On average, patients visit the clinic five times a year. Extrapolating data, 475 patient visits to the ER were avoided by referring patients to the clinic. We also treated 162 dental emergencies, saving these patients from an avoidable emergency room visit.

During 2025's evening and weekend hours, we provided access to low-cost healthcare for 2,783 patient visits. Combined with the cases sent to us by the emergency room and the dental emergencies treated at our clinic, we conservatively estimate that we have saved the local ER approximately 3,040 unnecessary visits. Our affordable and convenient access to care conservatively saves Gwinnett County and the patient nearly $1,500 each time a patient chooses Good Sam Gwinnett for medical and dental services instead of the emergency room. We are proud of our role in the community as a low-cost and effective alternative to hospital-based emergency treatment for primary medical and dental conditions. Our efforts include mitigating patients' medical and dental debt, as well as reducing the burden of uncompensated care on the community.

-Our family-centered approach, which treats the "whole" person, ensures that we deliver high-quality primary and preventive medical and dental services, counseling, pharmaceuticals, referrals, and health education programs. Our scope of services, focusing on our community's needs, includes:

- Primary and preventative medicine: Managing Chronic disease (including asthma, diabetes, hypertension)
- Pediatric medicine includes childhood vaccinations and managing asthma.
- Pediatric and Adult general dentistry (tooth decay is the #1 chronic disease among children, 2022 CDC)
- Treatment of dental emergencies. Emergency dental care is one of the most frequent inappropriate uses of emergency department services.
- Women's Health: breast and cervical cancer prevention
- Preventing inappropriate ER utilization
- Some specialty care (gynecology, neurology, asthma and allergy, and cardiology)
- Low-cost medications to manage chronic disease.

Once patients receive linguistically and culturally appropriate routine care, health education, and medication counseling, they experience improved health and success in school, work, and other settings helping them move from perpetual self-need to self-sustaining independence. Good Sam Gwinnett is a leader in charitable healthcare. We were named:

- 2013 winner Pinnacle Small Business Award.
- 2014 winner of the Healthcare Excellence Award.
- 2015 winner, D. Scott Hudgens Humanitarian Award.
- 2017 finalist, Regional Impact Award.
- 2019 winner of the Healthcare Agency Award.
- Good Sam Gwinnett is recognized by the National Committee for Quality Assurance (NCQA) as the first Patient-Centered Medical Home (PCMH) operating as a privately funded charity medical practice in Georgia.
- Gregory Lang, Ph.D., Good Sam's Executive Director Emeritus and now CFO has been appointed by Governor Brian Kemp to serve on the Georgia Department of Public Health Board.

- In March 2025, we were recognized with House Resolution 681 at the Georgia State Capitol for our commitment to serving uninsured and low-income residents through accessible medical and dental care

TAB D – BENEFICIARIES

Describe how the proposed project meets the identified need(s) in our community.

The Good Samaritan Health Center of Gwinnett is strategically located near a "medically under-served population" area, designated by the U.S. Health Resources and Services (HRSA, 2019). MUPs are typically population groups with economic, cultural, or linguistic access barriers to primary medical care services.

In Gwinnett County, 19% of its population is without health insurance. Our patients are low-income and uninsured. 60% of our patients have chronic disease. As stated earlier, our clinics address inequitable barriers to health.

To further showcase the need for our charitable care clinic, the Gwinnett County Needs Assessment (2023) shows numerous barriers to accessing health services, translating to unmet needs for services and limiting families' ability to obtain optimal health and well-being. Disparities are apparent in the Health Equity Index: Zip codes around Norcross and Lawrenceville show the highest relative need. Both clinics are in these distressed areas.

The assessment shows the following Healthcare Access Barriers:

1. High uninsured rates: Census tracts in the SW part of the County, around Norcross and the I-85 corridor, have uninsured rates for adults of more than 30%, with the highest rate being 46.8%. Both clinics are in or near these census tracts. On average, 32.5 % of children living within those tracts live in poverty, and over half of the families in the community are not financially stable (2021 Census Reporter). 91% of those living within the tracks are minorities (Black 12%, Hispanic 79%). 44% are foreign-born.
2. Need for access to adult dental care.
3. Cultural barriers: severe need for linguistically and culturally appropriate health services.
4. Cultural barriers impede the effective navigation of the health care system.

The County and partners have set a goal to work together to "Reduce the County's uninsured rate and improve access to healthcare services" to close gaps by 2027. We endeavor to partner with the County to improve direct medical and dental care access.

Additionally, heart disease, diabetes, cancer, chronic obstructive pulmonary disease, and kidney disease are all conditions that increase the risk of severe illness from COVID-19 (CDC). "Currently, 6 in 10 adults in the U.S. have at least one chronic disease, while 4 in 10 have two or more. "The safety protocols instituted to slow the spread of COVID-19 also disrupted access to many non-emergency, routine care services for months. That's led to a reported rise in patients showing signs of more advanced preventable chronic disease because they were not managed or controlled at the earlier stages." "32% of U.S. adults reported they avoided routine medical care due to concerns over COVID-19, while 12% of adults delayed seeking urgent or emergency

care." Poverty is prevalent in the Center's service area and its marginalized community, and access to traditional healthcare venues is minimal.

We know some people avoided seeking medical or dental care during the worst of the pandemic, worried about the risk of infection or being unable to get an appointment because hospitals and doctors were overwhelmed. Many are finding that inflation and the uncertain economy have thrown up another barrier. "Inflation and pressing household expenses are forcing some people to postpone health needs, an emerging trend that has health experts worried that conditions may only worsen." (NYT, 2023). This is undoubtedly the case with our patients. Our patients are concerned about putting food on the table and gas in their cars while also struggling with diabetes or other chronic diseases. "These populations with low socioeconomic status and those of certain racial and ethnic groups (African American, Hispanic, and Native American) have a disproportionate burden of chronic disease, SARS-CoV-2 infection, Covid diagnosis, and mortality." (CDC, Covid-19, and Chronic Disease). "They are at higher risk because of exposure to suboptimal social determinants of health (SDoH)." Education, poor access to health care, lack of safe and affordable housing, and lack of access to healthy food affect various health outcomes.

Lastly, we also know that living in poverty and without insurance continues to increase because of the economy. The Hispanic population, our majority customer, has been affected more markedly than other ethnic groups. These indicators strongly predict the current and future excessive use of emergency services by the poor and uninsured. Obesity, diabetes, and hypertension are chronic diseases leading to progressively declining health, but which, if addressed through low-cost primary care interventions, including dental interventions, can be minimized if not controlled. Our programs directly address these community health needs. Our common goal is to see a healthy and thriving community where a person's income or zip code does not determine if or when they can see a doctor. The Good Samaritan Health Center of Gwinnett provides access to affordable chronic disease healthcare for the vulnerable, leading to improved health, well-being, and overall quality of life for impoverished people.

TAB E - SUSTAINABILITY

Sustainability requirements

Provide the total budget for this project and the current amount of funding already in place for this project.

All our services, including two clinics located in distressed areas, 12 dental chairs, extended hours, low-cost fees, etc., contribute to a healthy community. Services accessed at appropriate times can result in reduced or avoided use of local emergency services. We are reporting our entire budget of $4,314,450 as our project budget. However, for greater specificity, allocating a portion of all labor overhead to our evening and weekend hours and including our contract labor budget for flexible capacity during season fluctuations of consumer demand, we may report a narrower project budget in the amount of $1,464,000.

Year to date, we have raised $375,870 of our total clinic budget for 2026 and expect to fund the remaining portion of our costs with patient fees and charitable contributions (individual donors, foundations, churches, businesses) to be collected throughout the remainder of the year." Our Clinics enjoy a current diverse mix of revenue sources, including fees for services rendered, grants from private and public sources, and donations from businesses, churches, individuals, and families. We operate debt-free.

STATEMENT

We are led by a dedicated Board of Directors and Executive Director who have the expertise and passion required to maintain a successful and robust Healthcare clinic for the working poor and uninsured. Our Centers enjoy a current diverse mix of revenue sources, including fees for services rendered, grants from private and public sources, donations from businesses, churches, individuals, and families, along with earned income vis-à-vis contracts with other non-profits, unrelated business income (parking lot rental) and interest income. Our board and CEO are committed to ensuring the long-term success and sustainability of the Centers by growing current revenue streams and developing new ones. We believe that by providing access to low-cost quality care for our patients and robust fundraising combined with an organizational culture of Servant Leadership, Good Sam Gwinnett will effectively serve the community for the long term. For the long-term sustainability of the Center, patients, and staff, we continue to carry a 12-month reserve and operate debt-free. Our strategic plan is deliberate in making decisions that will ensure our ability to respond successfully to changes in health care and our patient population. Our strategic plan is available upon request.

TAB F – PROPOSED BUDGET SUMMARY

Staff and overhead expenses must be directly related to carrying out the proposed project or activity.

Include leveraged funds that are immediately accessible and firmly committed to the project. Leveraged funds can include a blend of cash, loans, or in-kind resources available to finance the project costs.

This project will assist individuals who are overcoming a behavioral health crisis with also managing their physical healthcare needs. By assisting individuals who cannot afford medical monitoring supplies, pharmacy copays or afford appropriate and adequate transportation to urgent care and medical appointments, the root cause of such crises can be averted, hereby reducing the over-utilization of local emergency departments and the county's emergency management systems. State and national data show that approximately 85% of individuals who actively take prescribed medications and attend follow-up medical appointments do not routinely utilize an emergency department or local emergency management systems, allowing these providers to manage more chronic care physical challenges such as cardiac arrests and the like. View Point Health desires to use Gwinnett Healthcare Initiative (GHI) funding to help pay pharmacy copays, medical transportation and needed medical supplies. This funding will in turn increase access to care and save lives throughout Gwinnett County.

Project Description – Chronic Care Management Expansion

FCPC has a proven track record of providing comprehensive chronic care coordination to residents of Gwinnett County. Chronic care management focuses on supporting patients with two or more chronic conditions, improving health outcomes, and reducing preventable hospitalizations and emergency room visits. With this funding, we propose to expand our Chronic Care Management Program, increasing patient enrollment from 40 individuals in 2025 to 200 patients by the end of 2026, ensuring more residents receive the care, guidance, and resources they need to manage long-term conditions effectively.

Program Activities:

Monthly Patient Follow-Ups:
Our clinical staff, in collaboration with designated providers, will follow up with each enrolled patient for at least 20 minutes per month.

During these visits, staff will:

- Review referrals, chronic conditions, problem lists, and specialists involved in patient care.
- Perform medication reconciliation and ensure all preventive measures are current.
- Provide vaccine education and review no-show appointments.
- Complete Social Determinants of Health (SDOH) assessments to identify barriers to care.
- Verify if patients are due for annual physicals and collect relevant records from specialists and emergency visits.
- Ask about any recent ER visits and coordinate timely appointments with providers as needed.

Chronic Care Coordinators:

Coordinators will assist patients with scheduling appointments, identifying and overcoming barriers to care, and providing guidance to prevent unnecessary ER utilization. They will ensure that patients have access to the right services at the right time, improving continuity of care and reducing strain on Gwinnett County emergency and hospital systems.

Outreach and Community Engagement:
Our outreach team will develop and distribute flyers and advertisements to raise awareness of the program and recruit eligible patients. This proactive approach ensures that the most vulnerable populations are informed of available support and connected to services promptly.

Data-Driven Monitoring:
Staff will track patient outcomes, ER visits, hospitalizations, and preventive care compliance to evaluate program effectiveness. This data will guide ongoing program adjustments and demonstrate measurable reductions in emergency and hospital utilization.

Capacity Expansion and Funding Impact:
This funding will supplement and increase our capacity in several critical ways:

- Staffing: Expand clinical and care coordination staff to handle increased patient volume.
- Patient Support Services: Enhance scheduling, follow-up, education, and outreach efforts.
- Operational Infrastructure: Improve data tracking, record collection, and preventive care monitoring.

By expanding our program, we will directly reduce the burden on Gwinnett County emergency management services and hospital systems, ensuring patients receive timely, coordinated care that prevents avoidable complications and hospital visits. The initiative aligns with the County's mission to strengthen public safety and health infrastructure while improving the quality of care for residents with chronic conditions.

Conclusion:
This initiative represents a scalable, data-driven, and patient-centered approach to chronic care management. With funding support, our organization can significantly increase patient reach, improve health outcomes, and reduce emergency service demand, ultimately contributing to a healthier, more resilient Gwinnett County community.

Gwinnett County residents with multiple chronic conditions often face fragmented care, leading to preventable ER visits and hospitalizations, which strain local healthcare and emergency services. Our Chronic Care Management Program directly addresses this need by providing monthly patient follow-ups, medication reconciliation, preventive care oversight, vaccine education, and SDOH assessments. Coordinators assist with scheduling, barriers to care, and ER visit reduction. By expanding enrollment from 40 to 200 patients, this project ensures more residents receive coordinated, proactive care, improving health outcomes while reducing unnecessary emergency service utilization and supporting the County's public safety and healthcare infrastructure.

EXECUTIVE SUMMARY

2025 External Audit

The annual external audit is in progress. The audit process includes a thorough review of procedures and transactions to ensure that the County is following generally accepted accounting principles. Audit reports are intended to confirm that the figures presented within the County's Annual Comprehensive Financial Report are fairly presented.

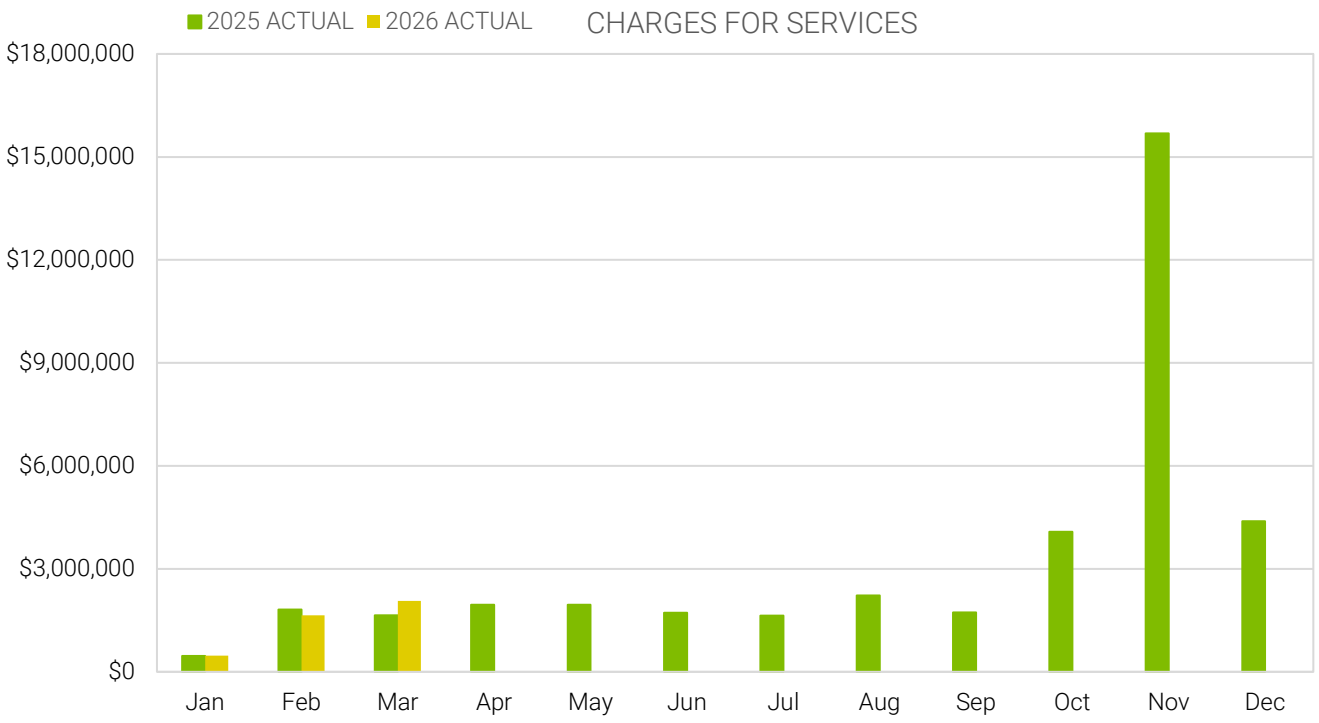
Investment Income

In March, the County's Investment Committee met to review the County's investment results for 2025. The County earned $88.6 million across all funds for a weighted average rate of return of 3.8%. At December 31, 2025, the County managed $2.6 Billion in a mix of vehicles including investment pools administered through the State Treasurer's Office, highly-rated government-issued securities, and deposit accounts held with local banks.

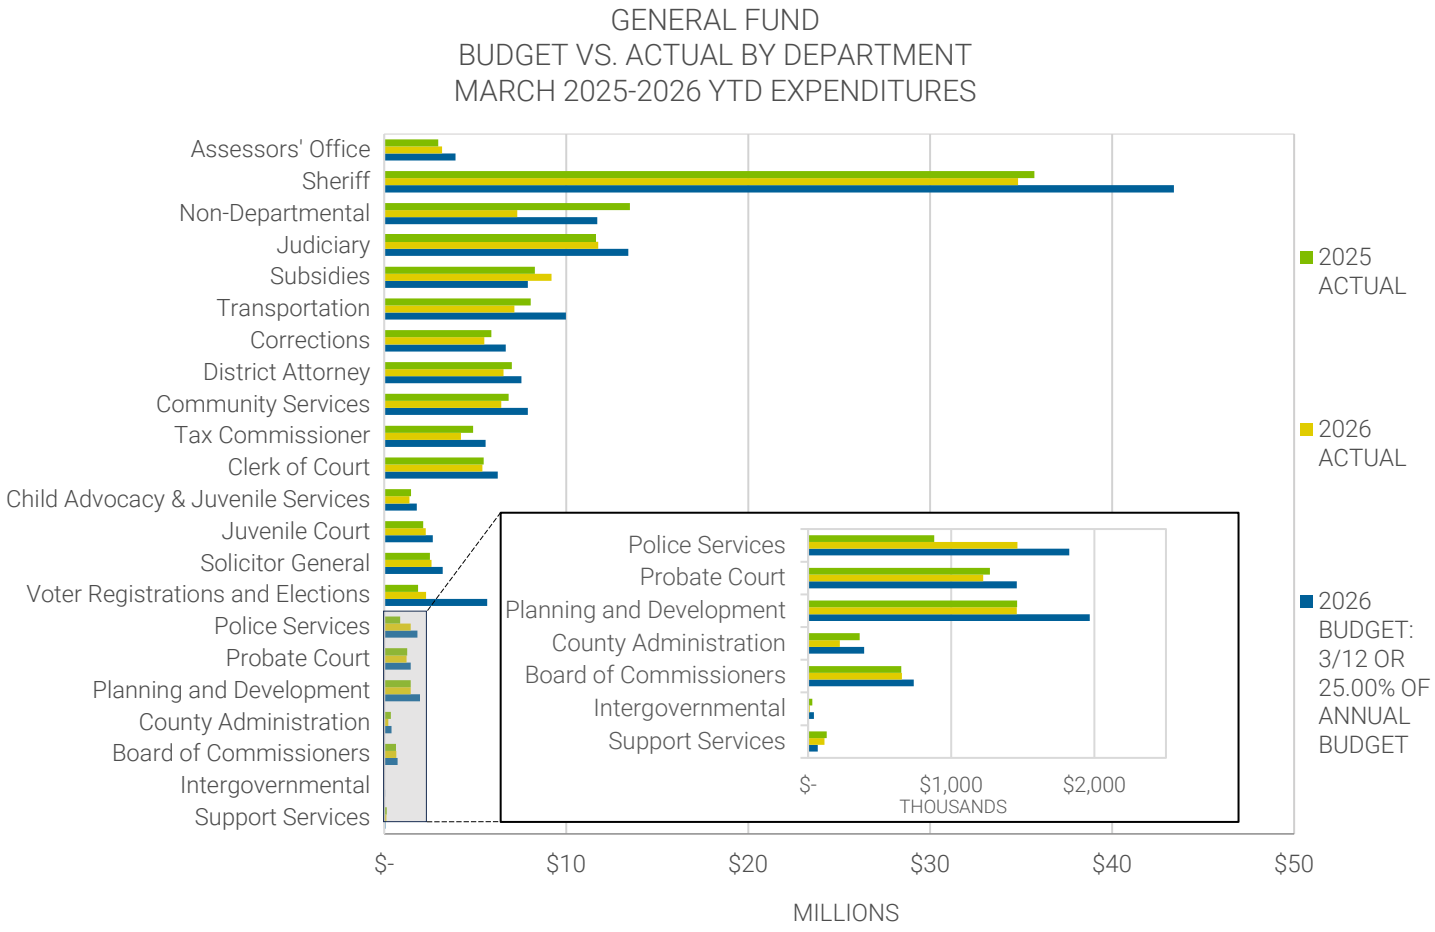
GENERAL FUND (PAGE 14)

The General Fund accounts for all County revenues and expenses not restricted to or accounted for in other funds. The County's General Fund supports services that benefit stakeholders, businesses, and residents countywide, such as sheriff, jail, courts, correctional facility, tax commissioner, community services, transportation, and elections.

The main revenue source for the General Fund will shift to property taxes later in the year when they are collected. Further discussion on property taxes can be found in the Recurring Items section. Charges for Services is another major revenue category in the General Fund. The main sources of revenue in this category are tax commissions related to property taxes, judicial services, and school and summer youth programs.



As seen in the chart, last year there were significant increases in monthly collections around the property tax due date of November 15, 2025. January receipts were much lower than in other months. This is because most of January's collections were for prior year services and were recorded in the prior year. Charges for Services revenue is up approximately $263,000, or 7 percent, when compared to the same time last year. This is primarily due to an increase in civil court case filings and other related court services.



Sheriff expenses are approximately $896,000, or 3 percent, lower compared to last year, primarily due to personnel costs resulting from a change in the payroll process, discussed in the Recurring Items section on page 12, and lower contributions for vehicle replacements. This decrease is partially offset by a $1.0 million increase in food costs related to the switch to a contracted food services vendor in April 2025. Additionally, expenses are under budget approximately $8.5 million, or 20 percent, primarily in personnel for the same reason as mentioned above. Professional services are also under budget due to the timing of healthcare and food contracts which are paid in arrears.

Non-Departmental expenses are approximately $6.2 million, or 46 percent, lower than prior year. This is primarily due to lower operating contributions to capital funds. The decrease reflects a strategic decision to utilize existing capital fund balance rather than transfer resources from operating funds. This approach preserves the fund balance in the General Fund while intentionally drawing down accumulated Capital Fund reserves.

Judiciary expenses are approximately $144,000 higher compared to 2025, primarily due to an increase in indigent defense costs and interpreter services. Additionally, expenses are under budget approximately $1.7 million, or 12 percent, primarily in personnel services resulting from a change in the payroll process, discussed on page 12.

Subsidies expenses are approximately $924,000 higher than last year due to the timing of and increased payments for the Medical Examiner and the Gwinnett County Public Library, as well as the timing of payments to the Atlanta Regional Commission.

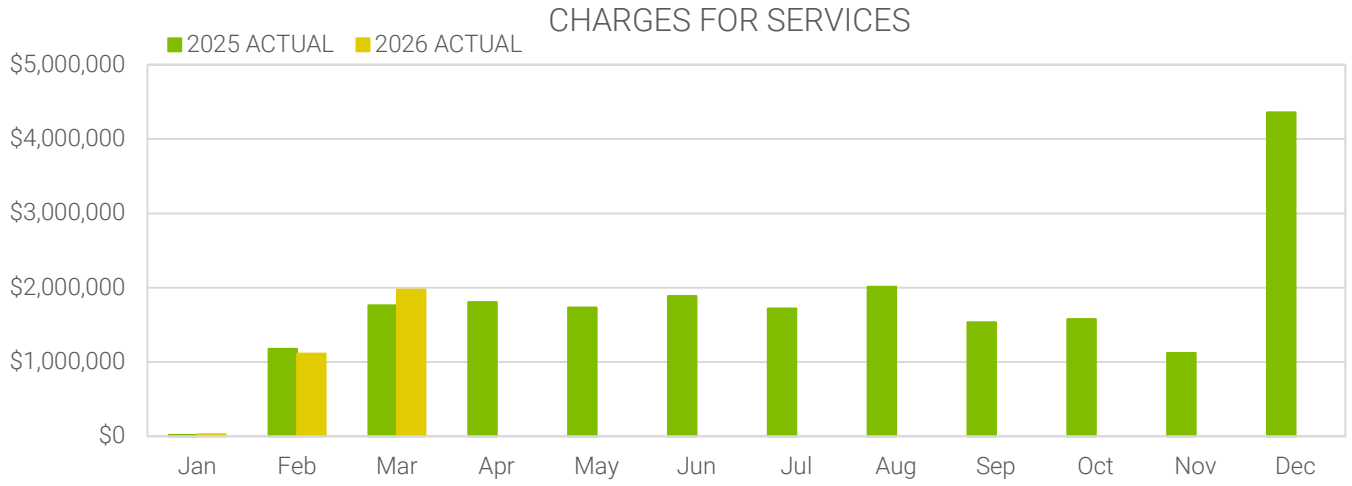
Transportation expenses are approximately $895,000, or 11 percent, lower compared to last year primarily due to contributions to capital for vehicle replacements and lower personnel costs related to the process change discussed on page 12, which is offset by an increase in general operating expenses. Additionally, expenses are approximately $2.8 million, or 28 percent, under budget primarily due to repairs and maintenance, industrial supplies, and professional services which are typically utilized later in the year.

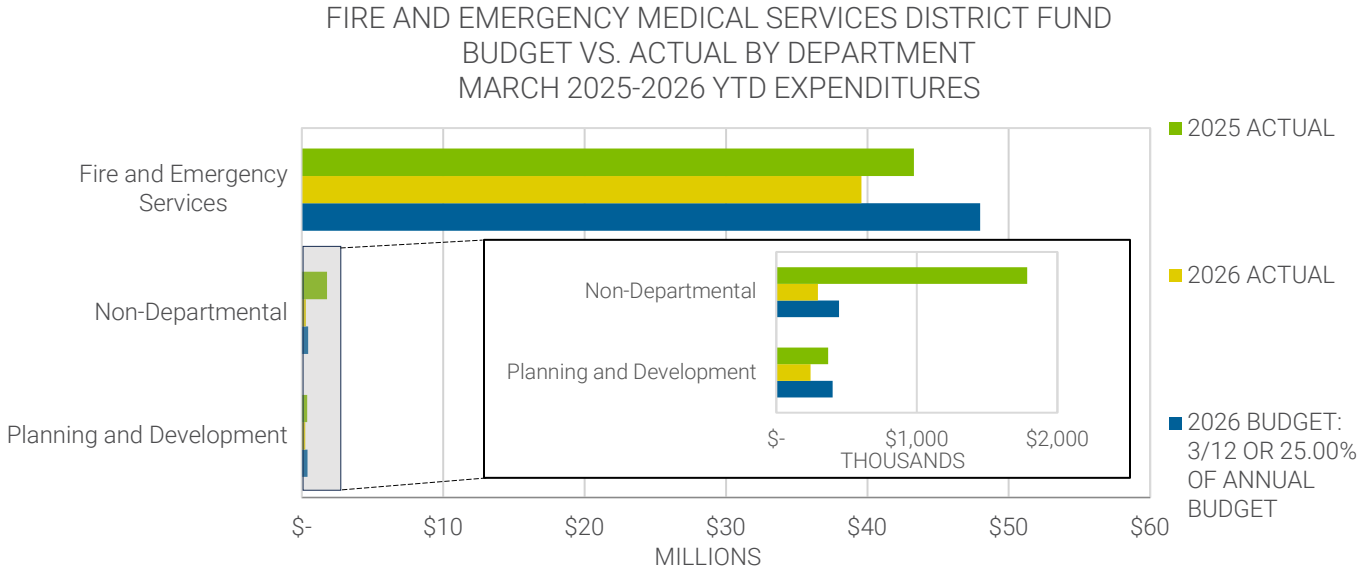
Voter Registrations and Elections expenses are approximately $445,000 higher when compared to last year. This is primarily due to an increase in professional services and the rental of a temporary storage space for elections equipment.

FIRE AND EMERGENCY MEDICAL SERVICES DISTRICT FUND (PAGE 16)

Gwinnett County is responsible for providing fire and emergency medical protection within the Fire and Emergency Medical Services District. This district includes all properties within unincorporated Gwinnett County and all cities except Loganville. The City of Loganville operates its own fire department, but residents and businesses continue to receive County-provided emergency medical services.

The main revenue source for the Fire and Emergency Medical Services District Fund will shift to property taxes later in the year when they are collected. Charges for Services is another major revenue category in this fund and is shown in the chart below. Charges for Services revenue, which primarily consists of ambulance fees, is up approximately $155,000, or 5 percent, when compared to the same time last year. This is primarily attributed to an increase in ambulance fees revenues.



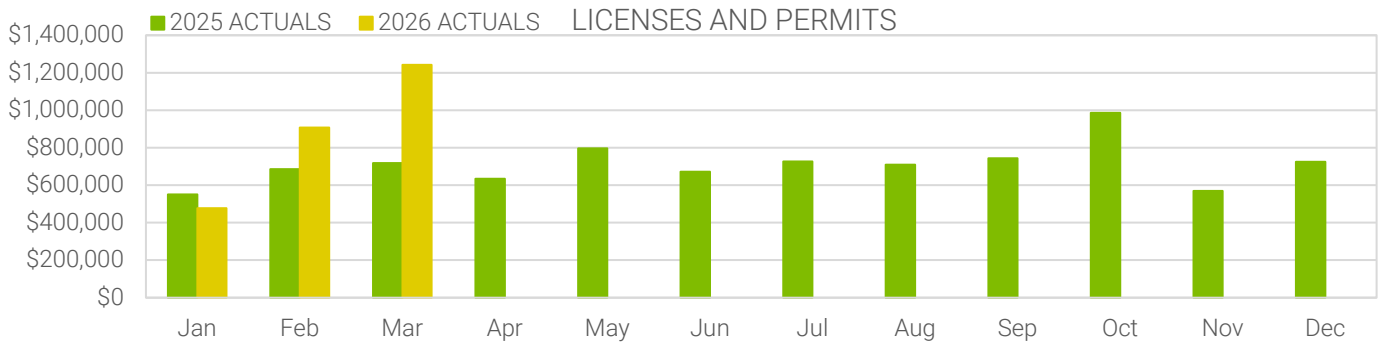


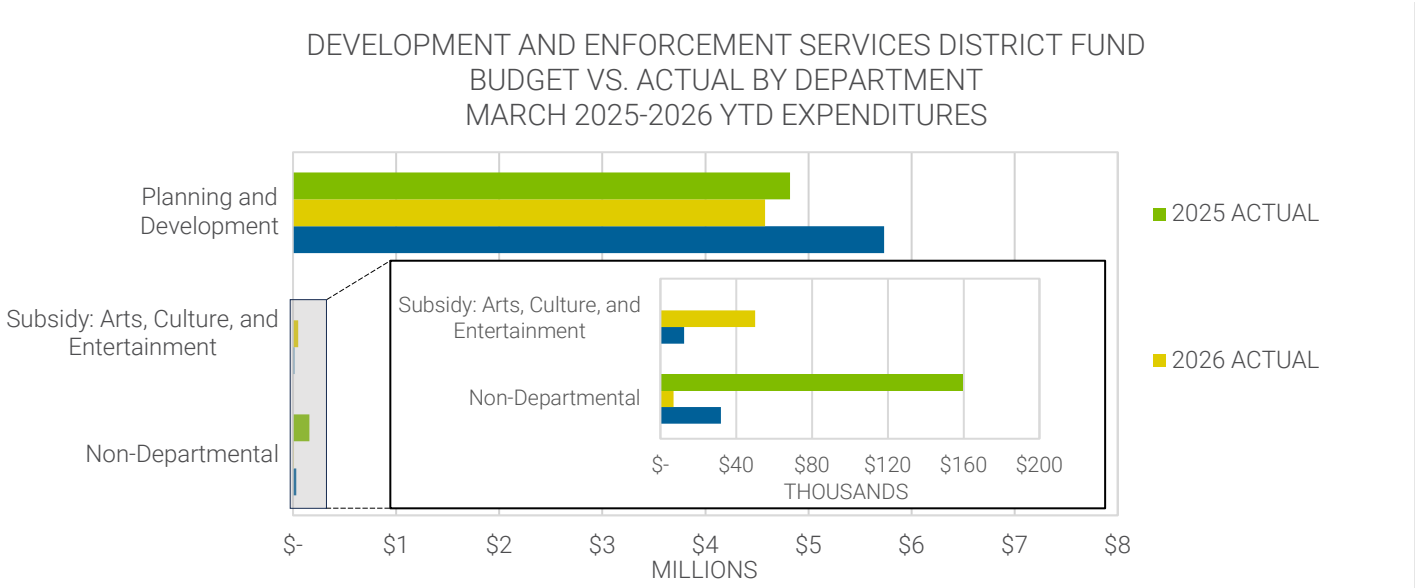
Non-Departmental expenses are approximately $1.5 million lower in comparison to 2025, primarily due to not having capital project contributions in the current year. Additionally, Fire and Emergency Services are under budget approximately $8.4 million, or 17 percent, primarily in personnel services resulting from a change in the payroll process, discussed on page 12.

DEVELOPMENT & ENFORCEMENT SERVICES DISTRICT FUND (PAGE 17)

The County is responsible for providing short-term planning and code enforcement services within the Development and Enforcement Services District. This district includes all properties within unincorporated Gwinnett County.

The main revenue source for the Development and Enforcement Services District Fund will shift to property taxes later in the year when they are collected. Licenses and Permits is another major revenue category in this fund and is shown in the chart below. When compared to the same time last year, Licenses and Permits revenue is up approximately $674,000, or 34 percent. This is primarily due to an increase in residential and commercial building permit activity.





Non-Departmental expenses are approximately $153,000 lower in comparison to 2025, primarily due to not having capital project contributions in the current year.

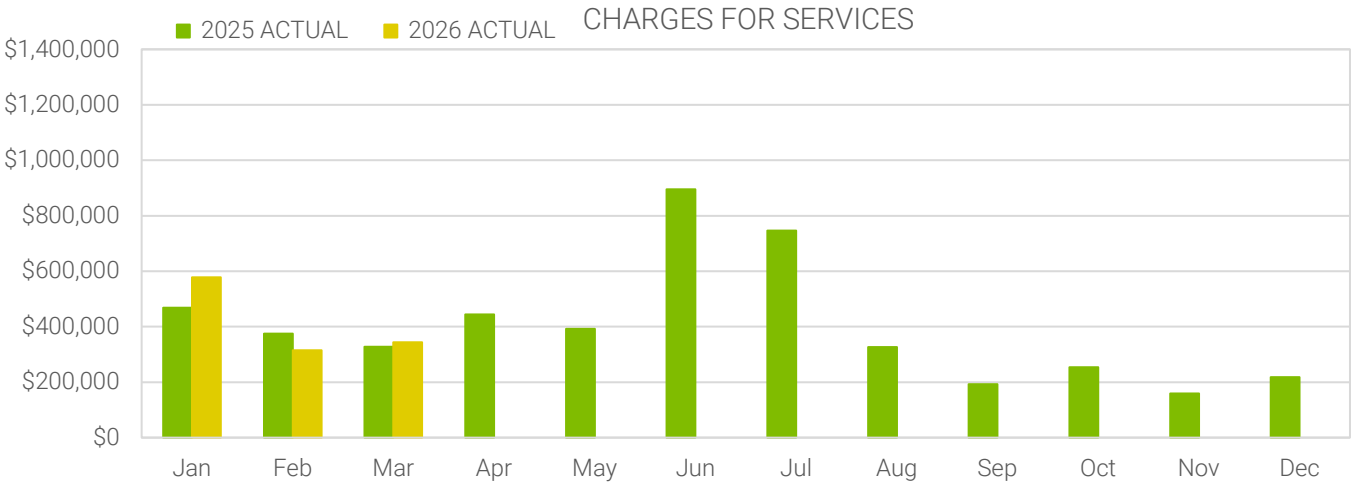
Planning and Development expenses are approximately $241,000 lower in comparison to 2025 and are under budget by $1.2 million, or 20 percent, primarily in personnel services due to the payroll process change discussed on page 12. The vacancy rate increased from 6 percent to 12 percent in 2026.

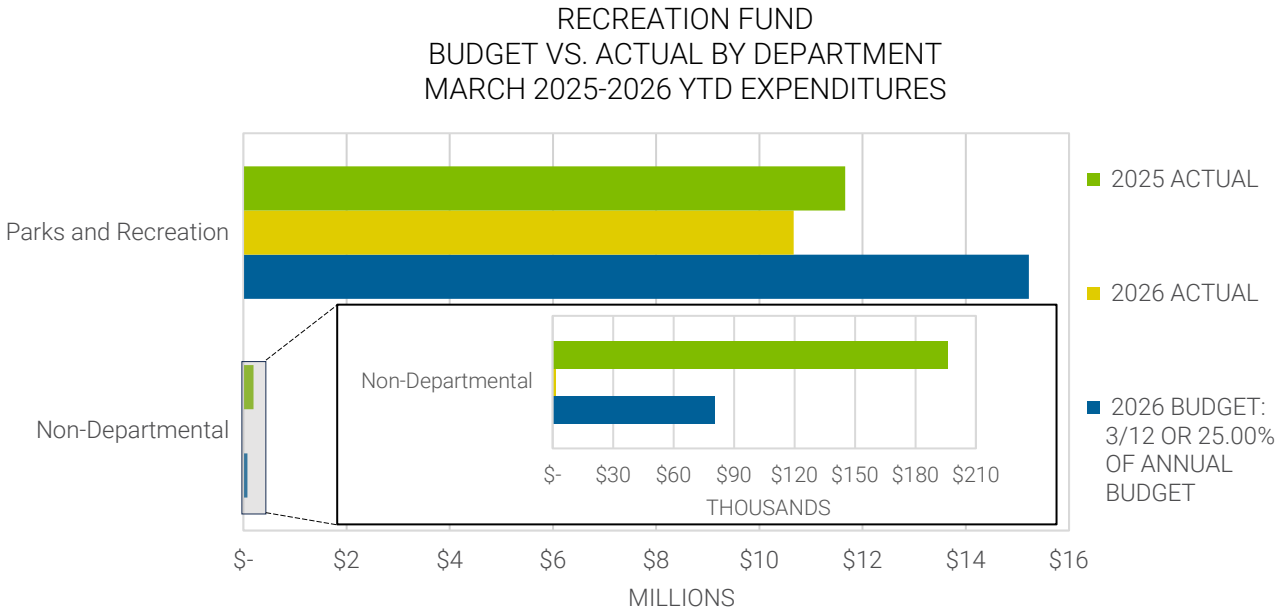
Arts, Culture, and Entertainment expenses are over budget by approximately $38,000, primarily due to a one-time payment supporting the Create Gwinnett initiative, which provides funding to begin implementation of the County's Arts Master Plan.

RECREATION FUND (PAGE 18)

The Recreation Fund accounts for the operations and maintenance of County parks and recreational facilities. Financing is provided by a specific property tax levy and miscellaneous revenues including admissions, concessions, and sport activity fees.

The main revenue source for the Recreation Fund will shift to property taxes later in the year when they are collected. Charges for Services is another major revenue category in the Recreation Fund. When compared to the same time last year, Charges for Services revenue is higher by $65,000, or 6 percent. This is primarily due to increased participation in community recreation programs, classes, and events.



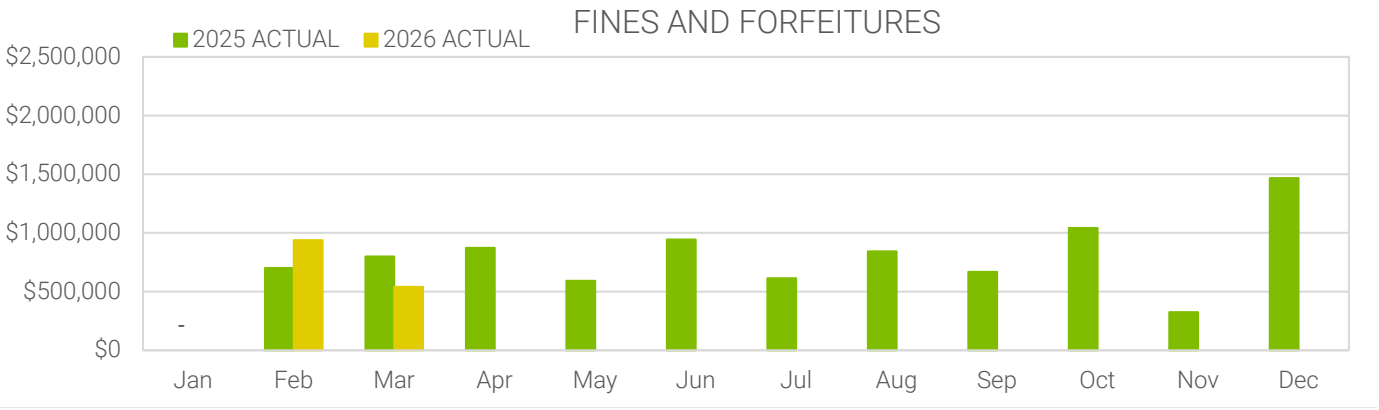


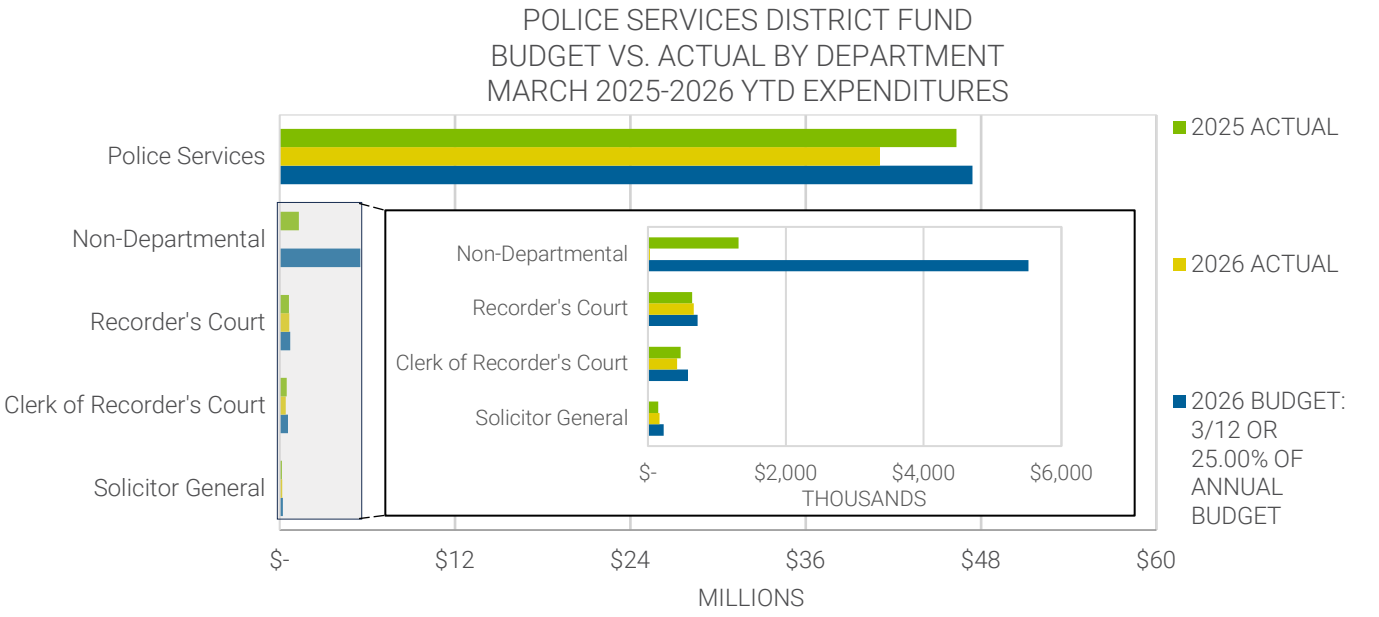
Non-Departmental expenses are approximately $194,000 lower in comparison to 2025, primarily due to not having capital project contributions in the current year. Additionally, Parks and Recreation expenses are under budget approximately $4.6 million, or 30 percent, primarily in personnel services due to the change in the payroll process. Additionally, there have been no transfers out to capital for vehicle replacements and new vehicles this year.

POLICE SERVICES DISTRICT FUND (PAGE 19)

Gwinnett County is responsible for providing police protection within the Police Services District. This district includes all properties within unincorporated Gwinnett County and cities that do not operate their own police departments (Berkeley Lake, Buford, Grayson, Dacula, Mulberry, Peachtree Corners, Rest Haven, and Sugar Hill).

The main revenue source for the Police Services District Fund will shift to property taxes later in the year when they are collected. Fines and Forfeitures is another major revenue category in the Police Services District Fund. Fines and Forfeitures revenue is comparable to last year.

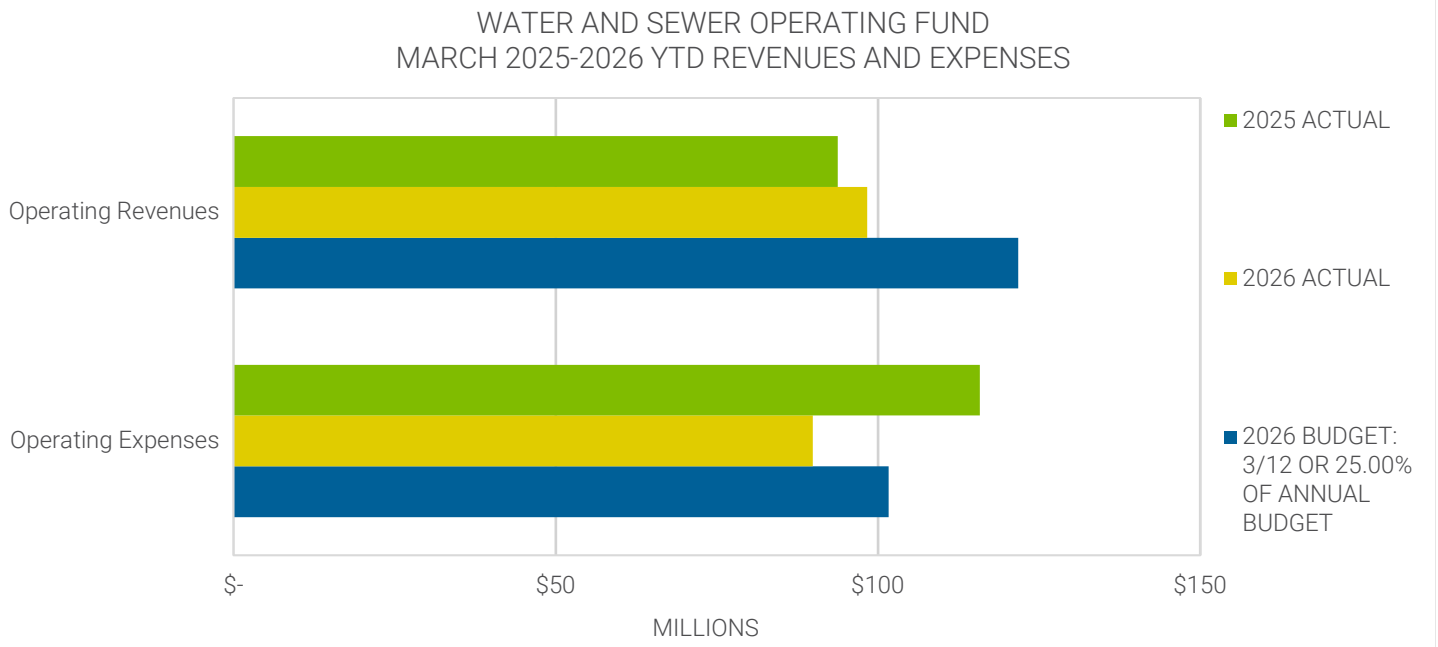




Police Services expenses are approximately $5.2 million, or 11 percent, lower than the prior year primarily due to not having capital contributions for vehicle replacements and the process change for personnel services discussed on page 12. Additionally, Police Services is under budget approximately $6.3 million, or 13 percent, primarily in personnel services due to the change in the payroll process. Additionally, there have been no transfers out to capital for vehicle replacements this year.

WATER & SEWER OPERATING FUND (PAGE 49)

The Water and Sewer Operating Fund supports the operation, maintenance, and capital improvement of the water and sewer system.

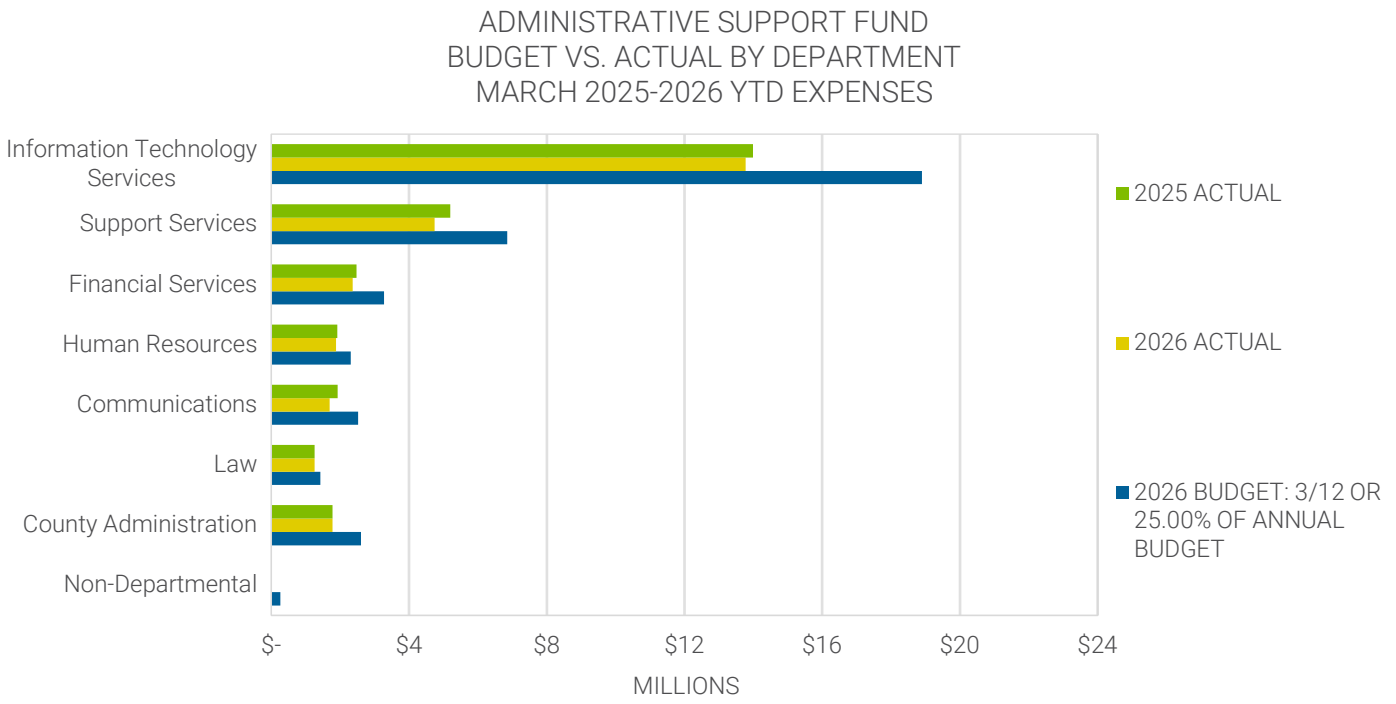


Year-to-date Water and Sewer Operating Fund revenues are up approximately $4.6 million, or 5 percent, when compared to last year. This is primarily attributable to an increase in investment income as discussed on page 12. However, revenues are under budget by approximately $23.4 million, or 19 percent, due to the timing of accruals and the billing cycle. Approximately 50 percent of revenue received in January was for services provided in December and was recorded in 2025.

Year-to-date, Water and Sewer expenses are down approximately $25.9 million, or 22 percent, compared to last year. This decrease is primarily attributable to lower capital contributions, debt service, and personnel costs due to a change in the payroll process, discussed on page 12. In August 2025, the Department of Water Resources repaid its 2016 and 2021 revenue bonds. Bond-related expense was approximately $63.2 million in 2025 and is projected to be $41.0 million in 2026. Additionally, expenses in the Water and Sewer Operating Fund are approximately $11.7 million, or 12 percent, under budget primarily in personnel services for the same reason as stated above. Repairs and maintenance, professional services, utilities, and supplies are also under budget.

ADMINISTRATIVE SUPPORT FUND (PAGE 55)

The Administrative Support Fund accounts for the activities of all central support departments: Communications, County Administration (excluding Gwinnett Clean & Beautiful, Internal Audit, Assessors' Office and Voter Registrations and Elections), Financial Services, Human Resources, Information Technology Services, Law, and Support Services. These activities are funded by indirect cost charges to all other funds receiving benefits.



Information Technology Services expenses are down approximately $221,000, or 2 percent, when compared to the same time last year. This is primarily due to personnel services resulting from the process change discussed on page 12, along with a decrease in outsourced technical service costs. Additionally, expenses are approximately $5.1 million, or 27 percent, under budget in personnel services due to the process change mentioned above, technical outsourced services, PC supplies, and license and support agreements, which are all expected to increase later in the year.

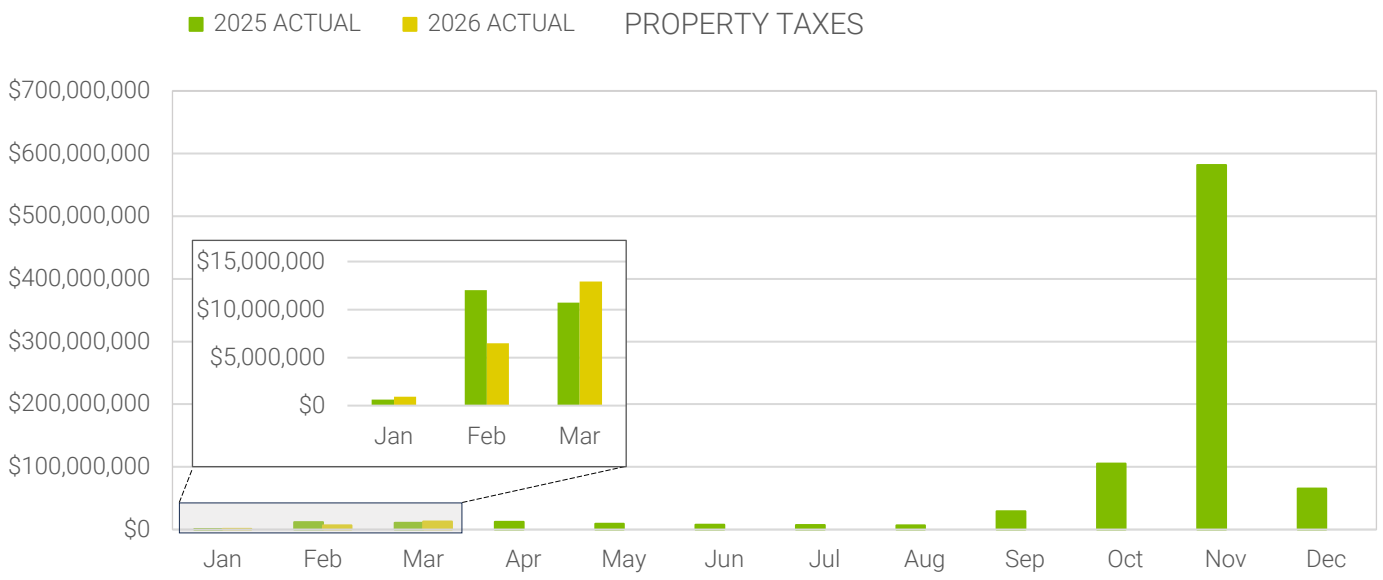
Support Services expenses are approximately $458,000, or 9 percent, lower than the prior year, primarily due to personnel costs resulting from a change in the payroll process discussed on page 12. Additionally, expenses are under budget approximately $2.1 million, or 31 percent, in personnel services due to the process change mentioned above and utilities.

Financial Services expenses are under budget approximately $909,000, or 28 percent, primarily in personnel costs due to the change in the payroll process discussed on page 12.

RECURRING ITEMS

Property Taxes

The County collects property taxes in the fall to fund services for the current year. Therefore, the funds that are primarily supported by property taxes will show revenues below budget until the collection date. Those funds are General, Fire & EMS, Development & Enforcement, Recreation, Police, and the Economic Development Tax Funds. Some special assessments are also included on property tax bills. Those collections are reflected in the Speed Hump, Street Lighting, and Stormwater Funds.



The chart above shows the monthly collections of property taxes across all funds. In the prior year, property taxes were collected around the November 15, 2025 due date. Compared to the same time last year, property tax collections are down $3.0 million, or 13 percent. This decrease is primarily driven by lower prior year property tax collections related to timing and changes in the accrual period.

Tax Digest Adjustment

In March, the Board of Assessors approved adjustments to the tax digest that resulted in a net increase of approximately $46.3m for tax years 2018 through 2025. These adjustments include a net increase of approximately $50.7m in real property assessed values and a net decrease of approximately $4.4m in personal property assessed values. The majority of the adjustments are from appeal resolutions.

Risk Management Fund

As of the date of this report, the Risk Management Fund has expended 48 percent of its budgeted appropriations. This variance is expected and reflects the payment of annual insurance premiums in January. As the year progresses and revenues are collected, the fund's financial position is expected to normalize.

Payroll Process Change

In 2026, the County implemented a change in its payroll process in which payroll expenses are recorded in the month they are processed rather than accruing them to the prior month. As a result of this change, personnel costs may appear lower when compared to prior year. The variance is related to timing and does not represent a decrease in staffing or compensation. Accruals are still performed for annual year-end reporting.

Contribution to Capital

Capital contributions in the General, Fire and EMS District, Development & Enforcement District, Recreation, and Police Funds are lower in 2026 compared to 2025. The decrease reflects a strategic decision to utilize existing capital fund balance rather than transfer additional resources from operating funds.

Investment Income

Beginning in January 2026, investment revenue earned in capital funds will be recorded in the corresponding operating fund. As a result, operating funds with a corresponding capital fund will reflect significant year-over-year revenue growth, even though market rates and expectations for County-wide investment revenue have decreased slightly.

101-General Fund

The General Fund is the primary tax and operating fund for all County revenues and expenditures that are not accounted for in other funds.

The Fire and Emergency Medical Services District Fund is used to account for the revenues and expenditures attributable to the Fire and Emergency Medical Service District. This district includes all properties within unincorporated Gwinnett County and all cities except Loganville. Gwinnett County is responsible for providing fire and emergency medical protection within this district. The City of Loganville operates its own fire department, but residents and businesses will continue to receive county-provided emergency medical services.

SUBGRANT AGREEMENT

THIS AGREEMENT entered into as of this _____**, 2026** (the "Agreement"), by and between the **ATLANTA WORLD CUP HOST COMMITTEE, INC.** (hereinafter referred to as the "**Host Committee**") and the **GWINNETT COUNTY BOARD OF COMMISSIONERS** (hereinafter referred to as the "**Subgrantee**"). Subgrantee and Host Committee are each a "Party" and collectively, the "Parties".

WITNESSETH THAT:

WHEREAS, the Host Committee desires to engage Subgrantee to render certain work and services hereinafter described in connection with a project (hereinafter referred to as the "**Project**") which is to be wholly financed by the FIFA World Cup Grant Program ("**FWCGP**") from the United States Department of Homeland Security ("**DHS**") through the Federal Emergency Management Agency ("**FEMA**") and subsequently through the Georgia Emergency Management and Homeland Security Agency ("**GEMA/HS**") (hereinafter referred to as the "**Funding Agencies**"); and

WHEREAS, the Host Committee issued to Subgrantee an award letter on March 30, 2026 (the "**Award Letter**"), expressly incorporated herein, which set forth the expected funding and general expectations of the grant, incorporated applicable provisions required by FEMA including the relevant Notice of Funding Opportunity (the "**NOFO**"), and conditioned reimbursement on the later agreement of a form of this Agreement; and

WHEREAS, Subgrantee desires to render such work and services in connection with the Project.

NOW THEREFORE, in consideration of the promises and the mutual covenants and agreements hereinafter contained, the Parties hereto agree as follows:

1. Engagement of Subgrantee. The Host Committee hereby agrees to engage Subgrantee and Subgrantee hereby agrees to perform the services hereinafter set forth in accordance with the terms and conditions herein. Pursuant to 2 C.F.R. § 200.331, the Host Committee affirms that under this Agreement, Subgrantee is a subrecipient of federal financial assistance and is not classified as a vendor or contractor.

2. Scope of Services. Subgrantee shall do, perform and carry out in a satisfactory and proper manner, as determined by the Host Committee, the work and services described in **Attachment A, Scope of Services**, as attached hereto and expressly incorporated herein.

3. Term. The effective date of this Agreement is **July 1, 2025**, and all work and services required hereunder shall be completed on or before **August 31, 2026** (the "**Term**"). Work and services shall be undertaken and pursued in such sequence as to assure their expeditious completion and as may be required in **Attachment A**.

4. Compensation. Subgrantee shall be compensated for the work and services to be performed under this Agreement as set forth in **Attachment B, Compensation and Method of Payment,** as attached hereto and expressly incorporated herein (such compensation, the

"**Compensation**"). The Compensation will be made on actual, eligible costs and expenses incurred, such Compensation not to exceed **$825,815.00** (the "**Cap**") in any event**.** Subgrantee understands and agrees that such Compensation is limited by and subject to the Cap. The Subgrantee agrees that the Compensation is also subject to the approval of applicable funding authorities, including FEMA and GEMA/HS, and funds for such Compensation actually being made available to the Host Committee for such purpose, which approvals, funding determinations, and funding are outside the control of the Host Committee and the Atlanta Regional Commission ("**ARC**") (as fiscal agent of the Host Committee). Notwithstanding any other provision of this Agreement to the contrary, and as a material condition of this Agreement, in no event shall the Host Committee or ARC have any obligation or liability to pay, or be responsible for the payment of, any portion of the Compensation to the Subgrantee unless and until the Host Committee has actually received corresponding funding approval and funding from FEMA and GEMA/HS specifically designated for such Compensation. The Host Committee's and ARC's payment obligations hereunder are strictly contingent upon and limited to the actual receipt of such funds from FEMA and GEMA/HS. The Subgrantee acknowledges and agrees that the Host Committee and ARC are not sureties, guarantors, or insurers of the Compensation, and the Subgrantee assumes all risk that such funding may not be approved, may be reduced, delayed, or may otherwise not be made available.

5. Approval of Subcontracts. Work or services to be performed under this Agreement by Subgrantee may be subcontracted. Subgrantee acknowledges that if work or services to be performed under this Agreement are financed solely or partially with federal funds, the selection of subcontractors, as required by the NOFO, therein incorporated by reference in the FEMA Grant Preparedness Manual, and therein incorporated by reference 2 CFR Part 200.317-327, is governed by regulations requiring competition between potential subcontractors or adequate justification for sole source selection. Subgrantee agrees to abide by such regulations in its selection procedure.

6. Assignability. Subgrantee shall not assign, subgrant or transfer its interest or any portion of its interest in this Agreement without the prior written approval of the Host Committee.

7. Amendments. The Parties may amend this Agreement from time to time as may be necessary to reflect changes in applicable law, funding requirements, or program directives, or as otherwise agreed by the Parties. Except as otherwise expressly provided in this Agreement, no change to this Agreement, including any increase or decrease in compensation, modification of scope, or extension or reduction of the Term, shall be effective unless memorialized in a written amendment executed by authorized representatives of both Parties. Notwithstanding the foregoing, the Host Committee may, by written notice to Subgrantee, issue directions, scope changes that could affect funded activities, instructions, or compliance requirements necessary to implement changes in the Prime Grant, FEMA or GEMA/HS directives, or other binding funding requirements applicable to this Agreement, and Subgrantee shall comply with such written notice without further amendment to the extent such notice does not materially increase Subgrantee's compensation or fundamentally alter the scope of services. Any such material change in compensation, period of performance or fundamental alteration of scope shall require a written amendment executed by the Parties.

8. Insurance. During the Term of this Agreement, Subgrantee shall have and maintain insurance coverage that complies with the laws of the State of Georgia, as well as reasonable and prudent business practices equivalent to organizations comparable to Subgrantee.

9. Formal Communication. Formal communication regarding this Agreement including correspondence, progress reports and financial reports, requests for approval and other contract administration matters shall be in writing and directed to the individuals executing this Agreement on behalf of each Party. Each Party may designate one or more representative(s) to administer this Agreement on its behalf. Any restrictions to such designation must be clearly defined in the written designation.

10. Reports. Subgrantee shall furnish the Host Committee with narrative progress reports, in such form and frequency as may be reasonably required by the Host Committee, outlining the work accomplished by Subgrantee, including the current status of the Project.

11. Financial Reports. In addition to other records required by this Agreement, Subgrantee agrees to provide to the Host Committee such additional financial reports in such form and frequency as the Host Committee may reasonably require in order to meet the Host Committee requirements for reporting to the Funding Agencies.

12. Review and Coordination. To ensure adequate assessment of Subgrantee's performance and proper coordination among interested parties, the Host Committee shall be kept fully informed concerning the progress of the work and services performed hereunder. Subgrantee may be required to meet with designated representatives of the Host Committee and the Funding Agencies to review such work and services. Reasonable notice of such review meetings shall be given to Subgrantee.

13. Inspections. Authorized representatives of the Host Committee and the Funding Agencies may at all reasonable times review and inspect the Project activities and data collected pursuant to this Agreement. Except where specifically prohibited by law, all reports, studies, records, and computations prepared by or for Subgrantee pursuant to this Agreement shall be made available to authorized representatives of the Host Committee and the Funding Agencies for inspection and review at all reasonable times in Subgrantee's office or site where data is normally accumulated. Approval and acceptance of such material shall not relieve Subgrantee of its professional obligation to correct, at its expense, any errors found in the work unless such errors can be shown to be caused by inaccurate or incomplete information provided by the Host Committee.

14. Maintenance of Cost Records. Subgrantee shall maintain all books, documents, papers, accounting records and other evidence pertaining to costs incurred on the Project and shall make such material available at all reasonable times during the Term of this Agreement, and for three (3) years from the date of the final closeout of the FWCGP, for inspection by the Host Committee or its agent, the Funding Agencies, and the Comptroller General of the United States, or any of their respective duly authorized representatives. Subgrantee shall include the provisions of this Paragraph 14 in any subcontract executed in connection with this Project.

15. No Obligation by the Federal Government. The Parties acknowledge and agree that, notwithstanding any concurrence by the Federal Government in or approval of the solicitation or award of the underlying contract, absent the express written consent by the Federal Government, the Federal Government is not a party to this Agreement and shall not be subject to any obligations or liabilities to the Host Committee, Subgrantee, or any other party (whether or not a party to this Agreement) pertaining to any matter resulting from the underlying contract.

16. Subgrantee's Personnel. Subgrantee represents that it has, or will secure at its own expense, all personnel required to perform the services under this Agreement. Such personnel shall not be employees of the Host Committee, nor shall such personnel have been employees of the Host Committee during any time within the twelve (12) month period immediately prior to the date of this Agreement, except with the express prior written consent of the Host Committee. Further, Subgrantee agrees that no such former Host Committee employees shall be involved in any way with the performance of this Agreement, without the express prior written approval of the Host Committee.

17. Employees' Rate of Compensation. The rate of compensation for work performed under this Project by a staff member or employee of Subgrantee shall not exceed the compensation of such person that is applicable to his or her other work activities for Subgrantee. Charges for salaries and wages of individuals shall be supported by time, attendance, and payroll distribution records.

18. Interest of Subgrantee. Subgrantee covenants that neither Subgrantee, nor anyone controlled by Subgrantee, controlling Subgrantee, or under common control with Subgrantee, nor its agents, employees or sub-subgrantees, presently has an interest, nor shall acquire an interest, direct or indirect, which would conflict in any manner or degree with the performance of its service hereunder, or which would prevent, or tend to prevent, the satisfactory performance of Subgrantee's service hereunder in an impartial and unbiased manner. Subgrantee further covenants that in the performance of this Agreement no person having any such interest shall be employed by Subgrantee as an agent, sub-subgrantee or otherwise. If Subgrantee contemplates taking some action which may constitute a violation of this Paragraph 18, Subgrantee shall request in writing the advice of the Host Committee, and if the Host Committee notifies Subgrantee in writing that Subgrantee's contemplated action will not constitute a violation hereof, then Subgrantee shall be authorized to take such action without being in violation of this Paragraph 18.

19. Interest of Members of the Host Committee and Others. No officer, member or employee of the Host Committee or its agents, and no public official of any local government which is affected in any way by the Project, who exercises any function or responsibilities in the review or approval of the Project or any component part thereof, shall participate in any decision relating to this Agreement which affects his or her personal interests, or the interest of any corporation, partnership or association in which he or she is directly, or indirectly, interested; nor shall any such officer, member or employee of the Host Committee, or public official of any local government affected by the Project, have an interest, direct or indirect, in this Agreement or the proceeds arising therefrom.

20. Officials Not to Benefit. No member of or delegate to the Congress of the United States of America, resident commissioner or employee of the United States Government, shall be admitted to any share or part of this Agreement or to any benefits to arise herefrom.

21. Compliance with Requirements of the Funding Agencies. Subgrantee acknowledges that this Agreement is funded in whole or in part by federal grant funds and federal and state implementation requirements, and is therefore subject to the terms, conditions, limitations, and compliance requirements of the governing funding instruments, which may be updated from time to time. Without limiting Subgrantee's other obligations under this Agreement, Subgrantee shall comply with (a) the applicable provisions of the grant agreement between GEMA/HS and the Host Committee, attached hereto as **Attachment C** and expressly incorporated herein (the "**Prime Grant**"), and (b) all other applicable requirements of the FIFA World Cup Grant Program, including applicable requirements imposed by the FEMA award to GEMA/HS to the extent such provisions and requirements are applicable to Subgrantee's activities under this Agreement or are required to be passed through to Subgrantee.

    21.1 To the extent the Prime Grant or other applicable funding requirements confer upon FEMA or GEMA/HS any approval, access, inspection, reporting, audit, monitoring, suspension, disallowance, repayment, termination, or other enforcement rights with respect to Subgrantee's performance, records, or use of funds under this Agreement, the Host Committee may exercise corresponding rights against Subgrantee to the extent permitted by applicable law and the governing funding instruments.

    21.2 Subgrantee shall comply with all applicable federal, state, and local laws, regulations, and other requirements governing the performance of this Agreement. This includes, but is not limited to, "Attachment A - State and Federal Terms" of the agreement between GEMA/HS and the Host Committee, and by reference, the NOFO for this award, and the applicable sections of FEMA's FY25 Preparedness Grant Manual.

    21.3 Subgrantee shall comply with all applicable federal, state, and local laws, regulations, and other requirements governing the performance of this Agreement. The Host Committee shall provide Subgrantee with prompt written notice of any amendment or other change in the Prime Grant or other funding requirements that materially affects Subgrantee's obligations under this Agreement after the Host Committee receives notice thereof.

22. Allowable Costs. Subgrantee certifies that costs claimed for reimbursement under this Agreement shall be incurred consistent with the terms and conditions of this Agreement and relevant federal cost principles. Reimbursements under this Agreement shall be limited to the necessary and reasonable costs incurred by Subgrantee in the performance of its obligations under this Agreement and properly supported by documentation reasonably required by the Host Committee or applicable funding requirements. No reimbursements shall be made to pay for costs incurred outside the scope of the FWCGP or otherwise unallowable under this Agreement or applicable law.

23. Disallowed Costs. If costs incurred by Subgrantee are not in conformity with the requirements of the FWCGP and this Agreement and are subsequently disallowed as a result of Subgrantee's

breach of this Agreement or a financial and compliance audit performed either pursuant to audits referred to herein below, by the Host Committee or its agent, the Funding Agencies, the Comptroller General of the United States, or any of their duly authorized representatives, or otherwise, such costs shall be refunded to the Host Committee from non-federal sources. The Host Committee reserves the right to withhold funds to recoup such improper or unauthorized disbursements. No finding of disallowed costs shall be made except after notice and reasonable opportunity to provide supporting documentation and explanation as provided in Paragraph 33, Disputes and Appeals, below. Funds shall not be allowable under this Agreement for costs of entertainment or for insurance policies which provide protection from debts against the Host Committee, the State of Georgia or the United States Government.

24. Publicity. Articles, papers, bulletins, reports or other material reporting the plans, progress, analysis or results and findings of the work conducted under this Agreement shall not be presented or published without first submitting the same to the Host Committee for review and comment. Subgrantee shall allow the Host Committee thirty (30) calendar days to review and provide comments on such material. If the Host Committee does not respond within such thirty (30) day period, the Host Committee shall be deemed to have no objection. If the Host Committee provides comments, objections, or reservations regarding such material, Subgrantee shall work in good faith with the Host Committee to address them before any presentation or publication.

25. Assurance. Subgrantee hereby assures and certifies that it will comply with all applicable federal, state, and local laws, regulations, policies, guidelines, and requirements governing the application for, acceptance, use, administration, and audit of funds pursuant to this Agreement, including but not limited to and to the extent applicable, 2 CFR Part 200, "Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards," 48 CFR 31, "Contract Cost Principles and Procedures," Executive Order 12372, "Intergovernmental review of Federal programs," or other requirements imposed by the Host Committee or the Funding Agencies regarding requirements of law or project matters as they relate to the application, acceptance, use and audit of federal funds for this federally assisted project. A nonfederal entity that expends $1,000,000 or more in federal awards during its fiscal year must have a single or program-specific audit conducted for that year.

26. Certifications. Subgrantee represents, warrants, and certifies that it shall comply with, and where required shall execute and deliver, all certifications, assurances, and representations required by applicable federal, state, and local law, the Prime Grant, the governing funding instruments, and this Agreement, in each case to the extent applicable to Subgrantee's activities under this Agreement. Without limiting the foregoing, Subgrantee shall provide such certifications and supporting documentation as the Host Committee may reasonably request in order to demonstrate compliance with applicable funding requirements and legal obligations.

27. Termination for Mutual Convenience. The Host Committee or Subgrantee may terminate this Agreement in whole or in part when both Parties agree that the continuation of the Project would not produce beneficial results commensurate with the further expenditure of funds. The Parties shall, through formal written amendment, agree upon the termination conditions, including the effective date and, in the case of partial termination, the portion to be terminated.

27.1 Subgrantee shall not incur new obligations for the terminated portion after the effective date and shall cancel as many outstanding obligations as possible. The Host Committee shall evaluate each non-cancelable obligation to determine its eligibility for inclusion in reimbursable project costs. Settlement will be made in accordance with the terms and conditions of this Agreement.

28. Termination for Host Committee Convenience. The Host Committee may terminate this Agreement, in whole or in part, at any time by giving written notice to Subgrantee of such termination and specifying the effective date thereof, at least thirty (30) days before the effective date of such termination. In that event, all information and material produced or collected under this Agreement and/or used in the performance of the scope of services shall, at the option of the Host Committee, become its property. If this Agreement is terminated by the Host Committee as provided in this Paragraph 28, Subgrantee will be reimbursed for the otherwise allowable actual expenses incurred by Subgrantee up to and including the effective date of such termination, subject to the provisions of Paragraph 4 and Attachment B. Subgrantee shall not incur new obligations for the terminated portion after the effective date and shall cancel as many outstanding obligations as possible. The Host Committee shall evaluate each non-cancelable obligation to determine its eligibility for inclusion in project costs.

29. Termination of the Agreement for Cause. If Subgrantee, due to its action or failure to act, shall fail to fulfill in a timely and proper manner its obligations under this Agreement, or if Subgrantee has or shall violate any of the covenants, agreements, representations or stipulations of this Agreement, the Host Committee shall thereupon have the right to terminate this Agreement. Prior to termination, Host Committee shall provide written notice to Subgrantee specifying the nature of the breach alleged to have occurred pursuant to this Paragraph 29. If such breach is reasonably curable, Subgrantee shall have thirty (30) days from receipt of said notice to cure or begin curing said breach. If Subgrantee fails to cure or begin curing said breach within such thirty (30) day cure period, or if such breach, by its nature, is incurable, Host Committee may terminate this Agreement by written notice specifying the effective date of said termination. In the event of such a termination, all information and materials collected or produced under this Agreement and/or used in the performance of the scope of services shall, at the option of the Host Committee, become its property. Subgrantee shall be entitled to receive just and equitable compensation for any satisfactory work and allowable costs completed pursuant and incurred in the performance of the scope of services up to and including the effective date of termination, subject to the provisions of Paragraph 4 and Attachment B. Notwithstanding the foregoing and to the extent permitted by law, Subgrantee shall not be relieved of liability to the Host Committee for damages sustained by the Host Committee by virtue of any breach of this Agreement by Subgrantee and the Host Committee may withhold any payments to Subgrantee for the purpose of set-off for damages caused by Subgrantee's breach, until such time as the exact amount of damages to the Host Committee from Subgrantee is determined.

30. Termination Due to Non-Availability of Funds. Notwithstanding any other provision of this Agreement, in the event that any of the funds for carrying out the functions to which this Agreement relates do not become available, then, upon written notice to Subgrantee, this Agreement may be immediately terminated without further obligation of the Host Committee.

31. Suspension Due to Non-Availability of Funds. The Funding Agencies have the right to suspend financial assistance for this Project. Consequently, the Host Committee reserves the same right regarding this Agreement. Such suspension would cause the withholding of further payments and/or prohibiting the Subgrantee from incurring additional obligations during the suspension period. However, unless notified in writing to the contrary, such suspension would not invalidate obligations otherwise properly incurred by Subgrantee or payments from Host Committee to Subgrantee for allowable costs incurred by Subgrantee prior to the date of suspension to the extent that they are non-cancelable.

32. Force Majeure. In no event shall either Party be responsible or liable for any failure or delay in the performance of its obligations hereunder upon the occurrence of any circumstance beyond the control of either Party, such as acts of God, war, acts of terrorism, government regulations or shutdowns, disaster, strikes, work stoppages, accidents, mandatory quarantines, pandemics, curfews, or other restrictions of movements, or civil disorder, to the extent that such circumstances make it illegal or impossible for either Party to fulfill the terms of this Agreement. Any termination or delay in the performance of this Agreement without liability is conditioned upon delivery of written notice to the other Party setting forth the basis for such termination as soon as reasonably practical, but in no event longer than ten (10) days, after learning of such basis. It is understood that the Parties shall use reasonable efforts consistent with industry standards to fulfill the performance of this Agreement to the extent feasible.

33. Disputes and Appeals. In the event of a dispute arising under this Agreement, the Parties shall first attempt in good faith to resolve the matter through discussions between their designated contract representatives. If the dispute is not resolved through such discussions, either Party may submit the dispute in writing to the Chief Executive Officer of the Host Committee, setting forth the relevant facts and requested relief. The Host Committee shall have the authority, in the first instance, to review and decide disputes arising under this Agreement, including disputes concerning performance, compliance, allowability of costs, and other matters of contract administration, subject to the procedures set forth in this Section 33.

    Before issuing any final determination adverse to Subgrantee with respect to disallowed costs, repayment obligations, or other material monetary relief, the Host Committee shall provide the Subgrantee a reasonable opportunity to submit written supporting materials and to participate, upon request, in a meeting with appropriate representatives of the Host Committee to discuss the matter. Following that process, the Host Committee shall issue a written decision within twenty (20) days after receipt of Subgrantee's response, or within such longer period as may be reasonably necessary upon written notice to Subgrantee.

    Pending final resolution of any dispute, Subgrantee shall continue performance to the extent reasonably practicable and not inconsistent with the position asserted by the Host Committee. Nothing in this Section shall make the Host Committee's determination final as to questions of law or waive either Party's rights or remedies otherwise available under this Agreement or applicable law.

34. Severability. Any section, subsection, paragraph, term, condition, provision or other part of this Agreement that is judged, held, found, or declared to be voidable, void, invalid, illegal or otherwise not fully enforceable shall not affect any other part of this Agreement, and the remainder of this Agreement shall continue to be of full force and effect.

35. Counterparts. This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which taken together shall constitute one and the same instrument.

36. Waiver. The failure of a Party to insist upon strict performance of any of the provisions contained herein shall in no way constitute a waiver of future violations of the same or any other provision.

37. Authority. The individuals executing this Agreement on behalf of Subgrantee and the Host Committee do each hereby represent and warrant that they are duly authorized by all necessary action to execute this Agreement on behalf of their respective principals.

38. Applicable Law. This Agreement shall be deemed to have been executed and performed in the State of Georgia. All questions of interpretation and construction shall be construed by the laws of the State of Georgia.

39. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter hereof and supersedes all prior and contemporaneous understandings, negotiations, representations, warranties, communications, and agreements, whether written or oral, relating to such subject matter.

40. No License; Intellectual Property Restrictions. For the avoidance of doubt, nothing in this Agreement shall be construed as granting to the Subgrantee any right, title, interest, or license, whether express, implied, by estoppel, or otherwise, in or to any trademarks, service marks, trade names, logos, copyrights, patents, trade secrets, or other intellectual property rights of FIFA, the World Cup, or the Host Committee (collectively, "**Protected IP**"). The Subgrantee shall not, directly or indirectly:

    (a) use, display, reproduce, modify, or create derivative works of any Protected IP;

    (b) register or attempt to register any Protected IP, or any mark, name, or domain name confusingly similar thereto, in any jurisdiction;

    (d) use the name, likeness, or image of FIFA, the World Cup, the Host Committee, or any of their respective officials, employees, or representatives for any commercial or promotional purpose; or

(e) engage in any conduct that could reasonably be expected to damage, tarnish, or dilute the goodwill or reputation associated with any Protected IP or with FIFA, the World Cup, or the Host Committee.

Notwithstanding the foregoing, the Subgrantee may refer to its participation in a project funded by the Host Committee solely in factual, non-promotional descriptions of its work, provided that any such reference: (i) does not use any Protected IP; (ii) does not imply any endorsement, sponsorship, or affiliation beyond the contractual relationship established by this Agreement; and (iii) is subject to the prior written approval of the Host Committee.

Any use of Protected IP or any publicity concerning FIFA, the World Cup, or the Host Committee beyond the scope of this Section shall require a separate written agreement between the applicable parties. The Subgrantee acknowledges that any breach of this Section may cause irreparable harm to FIFA, the World Cup, and/or the Host Committee, and that monetary damages may be inadequate. Accordingly, in addition to any other remedies available at law or in equity, the Host Committee shall be entitled to seek injunctive or other equitable relief to enforce the provisions of this Section without the necessity of proving actual damages or posting a bond.

SCOPE OF SERVICES

1. Background

The U.S. Department of Homeland Security ("**DHS**") through the Federal Emergency Management Agency's ("**FEMA**") Grant Programs Directorate ("**GPD**") launched the FWCGP.

The FWCGP supports the safe execution of the 2026 FIFA World Cup, by providing local jurisdictions with resources to help fund security activities required to protect players, staff, attendees, venues, and critical infrastructure across the host cities, strengthening them against potential terrorist attacks.

Grant funds will be distributed through State Administrative Agencies ("**SAA**"). In the State of Georgia, the SAA is the Georgia Emergency Management and Homeland Security Agency ("**GEMA/HS**"). Funds will then be transferred to the Host Committee.

2. Roles & Responsibilities

March 30, 2026

Dear Applicant to the FIFA World Cup Grant Program (FWCGP),

On behalf of Atlanta World Cup Host Committee, Inc. (the "Host Committee") I am pleased to extend my sincere congratulations to your organization for being selected as a subrecipient in support of security related activities associated with the FIFA World Cup 2026™.

Your organization has been approved for funding as a subrecipient under the FWCGP. This award reflects our confidence in your ability to execute programs and initiatives to carry out the security activities and operational readiness efforts required to protect players, staff, attendees, venues, and critical infrastructure in our region related to this historic event.

The funding will be contingent upon compliance with all applicable terms, reporting requirements, restrictions performance benchmarks, and grant-specific administrative pre-requisites as outlined in the notification of funding opportunity for the FWCGP.

The funds are exclusively intended to support the implementation of the projects described in your proposal and set forth in a formal Subrecipient Agreement between your organization and the Host Committee.

As a subrecipient, your organization will be required to:

- Execute the formal Subrecipient Agreement.
- Submit periodic financial and programmatic reports as requested by the Host Committee.
- Submit reimbursement packages to the Host Committee for actual cost incurred (the grant will operate on a reimbursement basis).
- Maintain compliance with all applicable federal, state, and local regulations.
- Participate in coordination, planning, and oversight meetings and activities as requested by the Host Committee.

Additional guidance regarding contract execution, disbursement schedules, reporting templates, and compliance standards will be provided during informational and training sessions over the next couple of weeks. The first session is anticipated to take place during the week of March 30 through April 5, 2026.

Please note that the federal funding allocation for this grant was limited, and the total value of funding applications exceeded the final federal allocation. As a result, some of your requests may not have been funded or may have been only partially funded.

In addition, if applicable to your specific application you should know that the purchase of vehicles and similar equipment is not allowable under FEMA preparedness grants. This restriction includes, but is not limited to, vehicles, bicycles, ATVs, UTVs, and weapons systems. However, the rental or lease of such assets is permitted when necessary to support FIFA World Cup 2026™ operations.

Regardless of category of expenses, the Department of Homeland Security and FEMA retain final authority in determining final cost allowability.

Prioritization of FWCGP resources was determined based on security and capacity needs identified through partner-initiated security planning efforts led by the Host Committee Chief Security Officer (HCCSO) and regional law enforcement partners. Funding is primarily intended to support overtime personnel expenses, along with limited equipment costs deemed essential to support those assignments.

Requests that were not funded, or were only partially funded, may have been determined to be ineligible or outside the scope of the program for one or more of the following reasons:

- The request pertained to the Counter Unmanned Aircraft Systems (C-UAS) Grant Program.
- The request included unallowable fringe benefits.
- The request involved personnel not accounted for in the planning process.
- The request was for items unrelated to FIFA World Cup activities.
- The request included equipment deemed outside of the purview of the grant or not essential to support event-related overtime personnel.
- The request duplicated previously submitted or funded item.
- The request included administrative or indirect cost that curtailed the ability to deliver operational needs.

We appreciate the time and effort invested in your application and recognize the critical role you and all partners play in ensuring a safe and successful event.

In the attached pages you will see the total award dollar amount and respective approved projects for your organization. The performance period of the grant is July 4, 2025, to August 31, 2026. Please note that until formal execution of the Subrecipient Agreement with the Host Committee, any expense for approved activities incurred by your organization will be your organization's sole responsibility.

Once again, congratulations and thank you for your commitment to our region and the FIFA World Cup 2026™.

Sincerely,

Dan Corso

COMPENSATION AND METHOD OF PAYMENT

1. Compensation: The total reimbursement estimated to be paid to the Subgrantee under this Agreement (i.e., Compensation) is $825,815.00. A breakdown of this budget is listed below and made part of this Agreement for financial reporting, monitoring, and audit purposes.

2. Method of Payment: The following method of payment will be used for this project:

   Invoices shall be submitted to the Host Committee based on the mechanism and policy established by ARC (as fiscal agent of the Host Committee) to perform the billing and drawdown activities for the grant. The mechanism and policies associated with expenses and the invoicing policy will be provided to subgrantees during the grant period.

   During this Agreement, the Subgrantee shall submit to the Host Committee invoices showing actual costs incurred with such details as may be reasonably requested by the Host Committee or ARC (as fiscal agent of the Host Committee). Any work for which reimbursement is requested may be disallowed by the Host Committee, in its reasonable and sole discretion, if the Host Committee determines such costs/expenses are not correctly documented in the required periodic invoice report.

3. Invoices: The Host Committee shall make payments to the Subgrantee as requests for reimbursement are reviewed and approved by FEMA and GEMA/HS and funds are made available to the Host Committee to make subsequent disbursements.

   The Subgrantee will utilize standard invoice templates provided by the Host Committee or ARC (as fiscal agent of the Host Committee), including all support documentation as requested by the Host Committee. GRANT AGREEMENT BETWEEN
GEORGIA EMERGENCY MANAGEMENT AND HOMELAND SECURITY AGENCY
AND
ATLANTA WORLD CUP HOST COMMITTEE, INC.

GRANT AGREEMENT
FOR
THE FIFA WORLD CUP GRANT PROGRAM

BETWEEN

THE GEORGIA EMERGENCY MANAGEMENT AND HOMELAND SECURITY AGENCY

AND

ATLANTA WORLD CUP HOST COMMITTEE, INC.

GRANT TERMS AND CONDITIONS

The United States Department of Homeland Security (DHS), Federal Emergency Management Agency (FEMA), approved the application and awarded grant funding from the FIFA World Cup Grant Program (FWCGP) to the Georgia Emergency Management and Homeland Security Agency (GEMA/ HS) on behalf of the State of Georgia, in accordance with The One Big Beautiful Bill Act 2025, (Public Law 119-21, Sec, 90005 (a)), as defined as 49 U.S.C § 44801 consistent with Title 18 and 49 of the U.S.C. The funding will allow recipients to carry out the extensive security activities required to protect players, staff, attendees, venues, and critical infrastructure across the host cities, strengthening them against potential terrorist attacks. The scale of the event poses significant security challenges. This program supports activities such as training and readiness exercises, staff background checks, cybersecurity defense, as well as increased police and emergency response for FIFA venues, hotels, transportation hubs, and other critical infrastructure to enhance security and preparedness.

The FWCGP provides $625 million in funding to host cities, through governor-designated State Administrative Agencies (SAAs). Funds will be awarded to SAAs in nine eligible states: California, Florida, Georgia, Massachusetts, Missouri (on behalf of Missouri and Kansas), New Jersey (on behalf of New Jersey and New York), Pennsylvania, Texas, and Washington. SAAs distribute FWCGP funds through subawards to the 11 designated Host City Committee Task Forces in: Atlanta, GA; Boston, MA; Dallas, TX; Houston, TX; Kansas City, MO; Los Angeles, CA; Miami, FL; New York City/Northern New Jersey Area (East Rutherford, NJ); Philadelphia, PA; San Francisco Bay Area (Santa Clara, CA); and Seattle, WA. SAAs are required to pass-through **100%** of the FWCGP funding to Host City Committee Task Forces. The Host City Committee Task Forces will then make subawards to local units of government. These organizations, called subrecipients, will use the funds to enhance the ability of local law enforcement, emergency responders, and public safety officials to prepare for, protect against, and respond to threats and emergencies during the World Cup matches. Investments under this program will include projects that build, sustain, and deliver the capabilities needed to prevent, prepare for, protect against, and respond to safety concerns during and related to the FIFA World Cup events.

As directed by Section 2008(b)(2) of the Homeland Security Act of 2002 (codified as amended at 6 U.S.C. § 609(b)(2)), FWCGP recipients and subrecipients may not use more than 50% of their total award amount to pay for personnel activities unless a waiver is approved by FEMA. Recognizing that 94% of these funds will be used to support operational overtime activities, when a state submits a grant application indicating that more than 50% of the funding will be allocated to personnel costs, FEMA will treat the grant application as a formal request for a waiver of the 50% limitation. FEMA's subsequent awarding of the grant will constitute approval of the waiver. A separate waiver request will not be necessary.

This Grant Agreement (Agreement) is made and entered into by and between the Georgia Emergency Management and Homeland Security Agency (GEMA/HS), an agency of the State of Georgia (State), and the Atlanta World Cup Host Committee, Inc. (Subrecipient). GEMA/HS and the Subrecipient are sometimes referred to herein individually as a "Party" or collectively, the "Parties".

GEMA/HS, as the Recipient, has awarded the amount of $73,390,940.00 to the Atlanta World Cup Host Committee as Subrecipient, in accordance with the FWCGP. For the purposes of this Agreement, GEMA/HS serves as the pass-through entity for a Federal award, and the Subrecipient serves as the recipient of a subaward.

Under this Agreement, GEMA/HS will execute the interests and responsibilities of the Recipient. The individual designated to represent the State is Josh M. Lamb, Authorized Recipient Official. The State has

designated Linda Criblez as the Program Manager of this program. The Subrecipient's Authorized Official has the authority to legally bind the Subrecipient and will execute the interests and responsibilities of the Subrecipient.

PURPOSE: The Subrecipient agrees to use allocated funds only as approved; to comply with the terms, conditions, and guidelines, as stated within this agreement; and to request reimbursement only for expenditures made in accordance with the Approved Budget Cost Lines. Any modification to the Budget must be requested in writing by the Subrecipient and must be approved by the Program Manager or other authorized representative prior to the execution of that modification.

THIS AGREEMENT IS ENTERED INTO BASED ON THE FOLLOWING REPRESENTATIONS:

2 C.F.R. §200.92 states that a "subaward may be provided through any form of legal agreement, including an agreement that the pass-through entity considers a contract."

As defined by 2 C.F.R. §200.74, "pass-through entity" means "a non-Federal entity that provides a subaward to a Sub-Recipient to carry out part of a Federal program."

As defined by 2 C.F.R. §200.93, "Subrecipient" means "a non-Federal entity that receives a subaward from a pass-through entity to carry out part of a federal program."

As defined by 2 C.F.R. §200.38, "Federal award" means "Federal financial assistance that a non-Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity."

As defined by 2 C.F.R. §200.92, "subaward" means "an award provided by a pass-through entity to a Sub-Recipient for the Subrecipient to carry out part of a Federal award received by the passthrough entity."

THEREFORE, PARTIES AGREE TO THE FOLLOWING:

I. PERIOD OF PERFORMANCE.

The Parties hereby agree as follows: This Agreement shall become effective on 20 March 2026 or on the date when the Agreement has been signed by all Parties and returned to GEMA/HS, whichever is later, and shall continue through 31 August 2026. No modifications to the Budget Cost Lines can be made after the termination date, 31 August 2026, or when all funds have been used. There will be only a single budget period with the same start and end dates as the period of performance.

GEMA/HS will maintain overall responsibility and accountability to the federal government for the duration of the program. GEMA/HS, as the Recipient, has awarded the amount of 73,390,940.00 to the Atlanta World Cup Host Committee, Inc as the Subrecipient, in accordance with FWCGP NOFO and Award Letter.

A special provision of this grant is that the Period of Performance begins on 4 July 2025 regardless of the date of signature. Spending of grant funds may not commence until this Agreement is effective. The Subrecipient agrees that all purchases and expenditures authorized under this program must be completed by the effective end date. Extensions are at the discretion of GEMA/HS and will only be granted for cause when requested in EM Grants Manager before the end date of this Agreement. GEMA/HS will consult with

their FEMA Headquarters Preparedness Officer for requirements related to a performance period extension. Extensions should be requested 30 days before the end of this agreement, but no longer than 30 days after the end date.

Any modification to the Budget Cost Lines must be requested in writing by the Subrecipient and must be approved by the Program Manager prior to the execution of that modification.

Subrecipient shall perform all activities as approved by GEMA/HS. Any change to a project shall receive prior written approval by GEMA/HS and, if required, by FEMA or other awarding agency.

III. **FUNDING OBLIGATIONS.** GEMA/HS shall not be liable to Subrecipient for any costs incurred by Subrecipient that are not allowable costs.

A. Notwithstanding any other provision of this Agreement, the total of all payments and other obligations incurred by GEMA/HS under this Agreement shall not exceed the total cumulative award amounts listed on the Subawards (projects and subsequent versions).

B. Subrecipient shall contribute the match funds listed on the subaward.

C. The Subrecipient agrees that all allocations and use of funds under this grant will be in accordancewith the FWCGP NOFO (Attachment I), and to comply with all DHS/FEMA requirements and cooperate with GEMA/HS to comply with federal and state requirements relatedto the grant funding.

D. The Subrecipient understands and agrees that any allocations and use of grant funding must support and may only be used to fund the investments identified in the FWCGP application submitted by GEMA/HS to DHS/FEMA and to use grant funding only for projects pre- approved by GEMA/HS.

E. Federal funds under this grant program are provided through reimbursement of all eligible expenditures. The Subrecipient shall follow procurement standards as stated in federal and state laws and regulations.

F. The Subrecipient understands and agrees that it cannot use any federal funds, either directly or indirectly, in support of the enactment, repeal, modification, or adoption of any law, regulation, or policy, at any level of government, without the express prior written approval of GEMA/HS and DHS.

G. No elected or appointed official or employee of the Subrecipient shall be admitted to any share or part of any benefit, directly or indirectly, from this agreement or grant award. This provision shallnot be construed to extend to any contract made with a corporation for its general benefit.

H. **Non-Supplanting Requirement**. The Subrecipient agrees that federal grant funds received under this award will not replace (supplant) funds that have been budgeted for the same purpose through non-federal sources. Applicants or Recipients may be required to demonstrate if a reduction in non- federal resources occurred for reasons other than the receipt or expected receipt of federal funds. The Subrecipient will be expected to demonstrate how these funds will be used to supplement, but not supplant, state or local

funds for the same purposes.

l. After all approved items on the approved Budget Cost Lines have been reimbursed to the Subrecipient; this Subrecipient Agreement shall be terminated. Any remaining funds shall be forfeited by the Subrecipient and de-obligated and reallocated by GEMA/HS.

IV. UNIFORM ADMINISTRATIVE REQUIREMENTS.

A. Except as specifically modified by law or this Grant, Subrecipient shall administer this Agreement through compliance with the most recent version of all applicable federal and state laws and regulations, including but not limited to DHS program legislation, Federal awarding agency regulations, and the terms and conditions of this Grant. B. **Unique Entity Identifier (UEI).** No entity may receive a subgrant under this award unless GEMA/HS has received the UEI number for the prospective Subrecipient.

C. **Accounting System**. The Subrecipient agrees to maintain an accounting system integrated with adequate internal fiscal and management controls to capture and report grant data with accuracy, providing full accountability for revenues, expenditures, assets, and liabilities. This system shall provide reasonable assurance that the Subrecipient is managing federal and state financial assistance programs in compliance with all applicable laws and regulations. The Subrecipient may utilize a Fiscal Agent with such accounting system if the Subrecipient does not maintain an accounting system which meets these requirements. Use of a fiscal agent should be documented via a Memorandum of Understanding.

D. The Subrecipient Agency shall utilize the U.S. Department of Homeland Security's E-Verify System to verify the employment eligibility of all persons hired during the Agreement term.

V. PURCHASING.

A. **Purchasing.** Subrecipient must follow federal, state, and local procurement guidance and regulations as standards for purchasing or acquiring equipment and services. All spending or purchases must be made in accordance with the agreed spending plan as outlined in the Budget Cost Lines and all equipment purchases must be in accordance with the Department of Homeland Security Authorized Equipment List (DHS/AEL) located on the internet at: https://www.fema.gov/grants/guidance-tools/authorized-equipment-list.

B. **Payment Request Forms.** Payments to the Subrecipients will be made only upon presentation of the approved Payment Request. Reimbursements from invoices and applicable proof of payment (or other justifying documentation) will only be made for eligible equipment, materials, expenses, and costs upon approval of the Program Manager. Omission of pertinent documentation will constitute justification for non-payment of any amounts submitted on the Payment Request.

1. FEMA reviews all grant payments and obligations to ensure allowability in accordance with 2 C.F.R. § 200.305. These measures will ensure funds are disbursed appropriately while continuing to support and prioritize communities who rely on FEMA for assistance. Once a recipient submits a payment request, FEMA will review the request. If FEMA approves a payment, it will process through FEMA GO and inform recipients accordingly for drawdown purposes. If FEMA disapproves a payment, FEMA will inform the recipient.

C. Payment Process and Timeline

1. FEMA must comply with regulations governing payments to grant recipients. See 2 C.F.R. § 200.305. For grant recipients other than States, 2 C.F.R. § 200.305(b)(3) stipulates that FEMA is to make payments on a reimbursement basis within 30 days after receipt of the payment request, unless FEMA reasonably believes the request to be improper. For state recipients, 2 C.F.R. § 200.305(a) instructs that federal grant payments are governed by Treasury-State Cash Management Improvement Act (CMIA) agreements ("Treasury-State

agreement") and default procedures codified at 31 C.F.R. part 205 and Treasury Financial Manual (TFM) 4A-2000, "Overall Disbursing Rules for All Federal Agencies." *See* 2 C.F.R. § 200.305(a).

2. Treasury-State agreements generally apply to "major federal assistance programs" that are governed by 31 C.F.R. part 205, subpart A and are identified in the Treasury-State agreement. 31 C.F.R. §§ 205.2, 205.6. Where a federal assistance (grant) program is not governed by subpart A, payment and funds transfers from FEMA to the state are subject to 31 C.F.R. part 205, subpart B. Subpart B requires FEMA to "limit a funds transfer to a state to the minimum amounts needed by the state and must time the disbursement to be in accord with the actual, immediate cash requirements of the state in carrying out a federal assistance program or project. The timing and amount of funds transfers must be as close as is administratively feasible to a state's actual cash outlay for direct program costs and the proportionate share of any allowable indirect costs." 31 C.F.R. § 205.33(a). Nearly all FEMA grants are not "major federal assistance programs." As a result, payments to states for those grants are subject to the "default" rules of 31 C.F.R. part 205, subpart B.

3. If additional information is needed, a request for information will be issued by FEMA to the recipient; recipients are strongly encouraged to respond to any additional FEMA request for information inquiries within three business days. If an adequate response is not received, the request may be denied, and the entity may need to submit a new reimbursement request; this will re-start the 30-day timeline.

D. Payment Submission Process. All non-disaster grant program reimbursement requests must be reviewed and approved by FEMA prior to drawdowns. For all non-disaster reimbursement requests (regardless of system), please ensure submittal of the following information:

1. Grant ID / Award Number

2. Total amount requested for drawdown

3. Purpose of drawdown and timeframe covered (must be within the award performance period)

4. Subrecipient Funding Details (if applicable). Is funding provided directly or indirectly to a subrecipient?

    i. If no, include statement "This grant funding is not being directed to a subrecipient."

    ii. If yes, provide the following details:

        a. The name, mission statement, and purpose of each subrecipient receiving funds, along with the amount allocated and the specific role or activity being reimbursed.

b. Whether the Subrecipient's work, or mission involves supporting aliens, regardless of whether FEMA funds support such activities.

c. Whether the payment request includes an activity involving support to aliens.

d. Whether the subrecipient has any diversity, equity, and inclusion practices.

5. Supporting documentation to demonstrate that expenses are allowable, allocable, reasonable, and necessary under 2 CFR part 200 and in compliance with the grant's NOFO, award terms, and applicable federal regulations.

E. **Allowable Costs**. Allowable costs for the FWCGP generally fall into five main categories: planning, organization, equipment, training, and exercises (POETE). All projects funded under the FWCGP must demonstrate a clear connection to building capabilities that safeguard FIFA World Cup events. All costs must have a demonstrated nexus to achieving target capabilities related to preventing, preparing for, protecting against, and responding to acts of terrorism in accordance with 6 U.S.C. 609(a) and 605(a). Funds may also be used in a manner that enhances preparedness for disasters unrelated to acts of terrorism, if such use assists such governments in achieving target capabilities related to preventing, preparing for, protecting against, or responding to acts of terrorism, pursuant to 6 U.S.C. 609(c). Please see Appendix A: FWCGP Allowable Activities, attached and incorporated herein.

F. **Unallowable Costs**. The following projects and costs are considered **ineligible** for award consideration:

1. Per FEMA policy and published in Information Bulletin No. 530, the purchase of weapons and weapons accessories, including ammunition, is not allowed with FWCGP funds. Grant funds may not be used for the purchase of the following equipment: firearms; ammunition; grenade launchers; bayonets; or weaponized aircraft, vessels, or vehicles of any kind with weapons installed. *(For the purposes of this NOFO, "weaponized aircraft" refers to any aircraft, manned or unmanned, that is equipped with, or designed to deliver, weapons or munitions. Non- weaponized aircraft and Unmanned Aircraft Systems (UAS) used for monitoring, surveillance, or data collection are not prohibited, unless otherwise specified. Requests for technologies with dual-use or mitigation functions that may fall into a gray area should be submitted to FEMA for pre-approval and justification.)*

2. Unauthorized exercise-related costs include:

i. Reimbursement for the maintenance or wear and tear costs of general use vehicles (e.g., construction vehicles), medical supplies, and emergency response apparatus (e.g., fire trucks, ambulances); and

ii. Equipment that is purchased for permanent installation and/or use, beyond

the scope of the conclusion of the exercise (e.g., electronic messaging sign).

3. FWCGP funds may not be used to support the hiring of sworn public safety officers for purposes of fulfilling traditional public safety duties or to supplant traditional public safety positions and responsibilities (6 U.S.C. § 609(b)(1)(A)). ***However, funds may be spent for operational overtime costs and surge personnel.*** The SAA, on behalf of the Host City Committee Task Force, must submit operational overtime requests in writing to its assigned FEMA Headquarters Preparedness Officer (see Appendix B: Operational Overtime Costs for additional information on operational overtime costs). FEMA will consider requests for activities in advance. However, such requests must be within the award's current period of performance and must not result in the need for a request to extend the period of performance.

4. Requests must address the threat environment as it relates to the event or activity requiring operational overtime support and explain how the overtime activity is responsive to the threat.

   i. Request letters sent to FEMA must be UNCLASSIFIED but may be labelled "For Official Use Only." If explaining the threat will require the sharing of classified information, the letter should state that fact. FEMA will then plan for the sharing of classified information through official channels;

   ii. Post-event operational overtime requests will only be considered on a case-by-case basis, where it is demonstrated that exigent circumstances prevented submission of a request in advance of the event or activity;

   iii. Under no circumstances may FEMA grant funding be used to pay for costs already supported by funding from another federal source;

   iv. FEMA will consult and coordinate with appropriate DHS components as necessary to verify information used to support operational overtime requests.

5. As directed by Section 2008(b)(2) of the Homeland Security Act of 2002 (codified as amended at 6 U.S.C. § 609(b)(2)), FWCGP recipients and subrecipients may not use more than 50% of their total award amount to pay for personnel activities unless a waiver is approved by FEMA. ***Recognizing that 94% of these funds will be used to support operational overtime activities, when a state submits a grant application indicating that more than 50% of the funding will be allocated to personnel costs, FEMA will treat the grant application as a formal request for a waiver of the 50% limitation. FEMA's subsequent awarding of the grant will constitute approval of the waiver. A separate waiver request will not be necessary.***

VI. GENERAL PROHIBITIONS

A. **Use of Funds**. DHS/FEMA Grant funds may only be used for the purposes set forth in this Grant and shall be consistent with the statutory authority for this Grant. Costs charged to federal awards (including federal and non-federal cost share funds) must comply with applicable statutes, rules and regulations, policies, this NOFO, and the terms and conditions of the federal award. This includes, among other requirements, that costs must be incurred, and products and services must be delivered within the budget period. 2 C.F.R. § 200.403(h).

B. Grant funds may not be used for matching or cost sharing requirements for other federal grants and cooperative agreements (see 2 C.F.R. § 200.306), lobbying or other prohibited activities under 18 U.S.C § 1913 or 2 C.F.R. § 200.450, prosecuting claims against the federal government or any other government entity (see 2 C.F.R. § 200.435), or any activities inconsistent with Federal laws and any laws or regulations applicable to their jurisdiction. Such activities must also be consistent with the First and Fourth Amendments to the Constitution.

C. **Federal Employee Prohibition**. Federal employees are prohibited directly benefiting from any funds under this Agreement.

D. The employment of unauthorized aliens by the Subrecipient is considered a violation of Section 274A(e) of the Immigration and Nationality Act. If the Subrecipient knowingly employs unauthorized aliens, such violation shall cause the unilateral cancellation of the Agreement. Any services performed by any such unauthorized aliens shall not be paid.

E. **Indirect Costs (Facilities and Administrative Costs)** Indirect costs (IDC) are allowed for recipients and subrecipients. IDCs are costs incurred for a common or joint purpose benefitting more than one cost objective and not readily assignable to specific cost objectives without disproportionate effort. Applicants with a current negotiated IDC rate agreement who desire to charge indirect costs to a federal award must provide a copy of their IDC rate agreement with their applications. Not all applicants are required to have a current negotiated IDC rate agreement. Applicants that are not required to have a negotiated IDC rate agreement, but are required to develop an IDC rate proposal, must provide a copy of their proposal with their applications. Applicants without a current negotiated IDC rate agreement (including a provisional rate) and wish to charge the de minimis rate must reach out to FEMA for further instructions. Applicants who wish to use a cost allocation plan in lieu of an IDC rate proposal must reach out to FEMA for further instructions. As it relates to the IDC for subrecipients, a recipient must follow the requirements of 2 C.F.R. §§ 200.332 and 200.414 in approving the IDC rate for subawards.

F. **Management and Administration (M&A) Costs**. Subrecipients may use up to **5%** of the funding passed through by the state specifically for M&A related to the FWCGP award. M&A costs are not overhead costs but are necessary direct costs incurred in direct support of the federal award or as a consequence of it, such as travel, meeting-related expenses, and salaries of full/part-time staff in direct support of the program. As such, M&A costs can be itemized in financial reports. If the Subrecipient engages a Fiscal Agent or other agent to assist in the Subrecipient's management of the FWCGP award, all or a portion of the 5% may be used to pay the fees of such Fiscal Agent or other agent. The Subrecipient

may issue a subgrant to such Fiscal Agent or other agent to pay such Fiscal Agent's or other agent's fees.

G. **Pre-Award Costs**. Pre-award costs are defined as costs incurred by the applicant prior to the start date of the period of performance of the federal award and are allowable only with the prior written approval of DHS/FEMA and as included in the award agreement. To request pre-award costs, a written request must be included with the application and signed by the AOR of the entity. The letter must outline what the pre-award costs are for, including a detailed budget break-out of pre-award costs from the post-award costs, and a justification for approval. For more information, please contact your assigned FEMA Headquarters Preparedness Officer.

H. The FWCGP NOFO and any subsequent federal awards create no rights or causes of action for any beneficiary or participant.

I. Prohibition on Covered Equipment or Services. See the Preparedness Grants Manual Section 3.2.3, which is incorporated by reference into the FWCGP NOFO.

1. Recipients, sub-recipients, and their contractors or subcontractors must comply with the prohibitions set forth in Section 889 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019, which restrict the purchase of covered telecommunications and surveillance equipment and services. Please see 2 C.F.R. §§ 200.216, 200.327, 200.471, and Appendix II to 2 C.F.R. Part 200, and FEMA Policy #405-143-1 - Prohibitions on Expending FEMA Award Funds for Covered Telecommunications Equipment or Services for more information.

VII. MODIFICATIONS

The Subrecipient understands and agrees that, in addition to the provisions in Section X, *Termination* below, GEMA/HS shall have the right to make unilateral changes, cancel, or terminate this agreement in the event that FEMA and/or DHS makes changes to the FWCGP grant awarded to GEMA/HS. With the exception of termination or changes included in this Agreement, there shall be no other changes to this Agreement unless mutually agreed upon by all parties to the Agreement.

VIII. NONCOMPLIANCE

A. Non-federal entities receiving financial assistance funding from FEMA are required to comply with requirements in the terms and conditions of their awards or subawards, including the terms set forth in applicable federal statutes, regulations, NOFOs, and policies. Throughout the award lifecycle or even after an award has been closed, FEMA or the pass-through entity may discover potential or actual noncompliance on the part of a recipient or subrecipient.

B. In the case of any potential or actual noncompliance, FEMA may place special conditions on an award per 2 C.F.R. §§ 200.208 and 200.339. FEMA may place a hold on funds until the matter is corrected, or additional information is provided per 2 C.F.R. § 200.339, or it may do both. Similar remedies for noncompliance with certain federal civil rights laws are authorized pursuant to 44 C.F.R. Parts 7 and 19 or other applicable regulations.

C. If the noncompliance is not able to be corrected by imposing additional conditions or the recipient or subrecipient refuses to correct the matter, FEMA may take other remedies allowed under 2 C.F.R. § 200.339.

IX. SUSPENSION

In the event Subrecipient fails to comply with any term of this Grant, GEMA/HS may, upon written notification to Subrecipient, suspend this Agreement, in whole or in part, withhold payments to Subrecipient and prohibit Subrecipient from incurring additional obligations of this Grant's funds.

X. TERMINATION

A. Cause/Default: This agreement may be terminated for cause, in whole or in part, at any time by the State of Georgia for the failure of the Subrecipient to 1) perform any of the provisions or to comply with any of the terms and conditions herein or 2) comply with the terms and conditions of the federal award.

1. If the State exercises its right to terminate this agreement under the provisions of this paragraph, the termination shall be accomplished in writing and specify the reason and termination date. The Subrecipient will be required to submit the final invoice no later than 30 days after the effective date of written notice of termination. Upon termination of this agreement, the State shall not incur any new obligations after the effective date of the termination and shall cancel outstanding obligations, as possible. The above remedies are in addition to any other remedies provided by law or the terms of this agreement.

2. GEMA/HS may terminate this Agreement for cause after thirty (30) days written notice. Cause can include misuse of funds, fraud, lack of compliance with applicable rules, laws, and regulations, failure to perform on time, and refusal by the Subrecipient to permit public access to any document, paper, letter, or other material subject to disclosure under O.C.G.A. Section 50-18-70 et seq.

B. Notwithstanding and without waiving any other remedies available for the Subrecipient's failure to comply with the terms and conditions of this agreement, if the Subrecipient fails to meet its obligations, voluntarily or otherwise, as part of a GEMA/HS program, GEMA/HS will have the right, privilege, and option to immediately terminate this Agreement. Failure to exercise the right of termination for previous occurrences or omissions will not act as a waiver for future noncompliance by the Subrecipient. Should GEMA/HS exercise the right, privilege, and option to terminate this Agreement, the Subrecipient shall immediately transfer ownership of any FWCGP grant-funded equipment purchased under this agreement to GEMA/HS or whomever GEMA/HS shall designate, without cost, as directed by GEMA/HS.

C. Non-Availability of Funding: Notwithstanding any other provision of this agreement, in the event that either of the sources of funding for reimbursement under this agreement (appropriations from the General Assembly of the State of Georgia or the Congress of the United States of America) no longer exist, in the event, the sum of all obligations of GEMA/HS incurred under this and all other agreements entered into for this program

exceeds the balance of such funding, then this agreement shall immediately terminate without further obligation of GEMA/HS. The certification by the Director of GEMA/HS of the occurrence of either of the events stated above shall be conclusive.

D. In the event this Agreement is terminated, the Subrecipient will not incur new obligations for the terminated portion of the Agreement after the Subrecipient has received the notification of termination.

E. The Subrecipient will cancel as many outstanding obligations as possible. Costs incurred after receipt of the termination notice will be disallowed. The Subrecipient shall not be relieved of liability to GEMA/HS because of any breach of Agreement by the Subrecipient. GEMA/HS may, to the extent authorized by law, withhold payments to the Subrecipient for the purpose of set-off until the exact amount of damages due GEMA/HS from the Subrecipient is determined.

F. **Subrecipient's Responsibilities Upon Termination**. If GEMA/HS provides a notice of termination to the Subrecipient, except as otherwise specified by GEMA/HS in that notice, the Subrecipient shall:

1. Stop work under this Agreement on the date and to the extent specified in the notice.

2. Complete performance of such part of the work that has not been terminated by GEMA/HS, if any.

3. Take such action as may be necessary, or as GEMA/HS may specify, to protect and preserve any property which is in the possession and custody of the Subrecipient, and in which GEMA/HS has or may acquire an interest.

4. Transfer, assign, and make available to GEMA/HS all property and materials belonging to GEMA/HS upon the effective date of termination of this Agreement. No extra compensation will be paid to the Subrecipient for its services in connection with such transfer or assignment.

G. Impacts of Termination. When the federal award is terminated in part or its entirety, FEMA or the pass-through entity and the recipient or subrecipient remain responsible for compliance with the requirements in 2 C.F.R. §§ 200.344 and 200.345.

H. **Withholding and Repayment of Funds**. In addition to any other remedies provided by law or the terms of this Agreement, if the Subrecipient fails to comply with any of the terms or conditions of this Agreement, including all attachments hereto, or with any applicable federal or state law or regulation, GEMA/HS may withhold or require repayment of grant funds in connection with which the violation occurred. In addition, GEMA/HS may withhold or require repayment of all or any portion of the financial award which has been or is to be made available to the Subrecipient. Specifically, without limitation, GEMA/HS will be entitled to payment from the Subrecipient for any funds paid by the State or that the State is responsible to pay on behalf of the Subrecipient for which GEMA/HS is unable to receive payment or required to repay due to the Subrecipient's failure to cooperate in providing the required documentation showing receipt of the goods or services, completing

and returning the Acknowledgment Form to GEMA/HS in the time required, purchasing of equipment in the time required, submitting a request for reimbursement with complete supporting documents, or any other activity that GEMA/HS deems a failure by the Subrecipient under this Agreement.

I. Subrecipient will comply with additional Termination provisions as detailed in Attachment A, *State and Federal Terms*, incorporated and attached herein.

XI. CLOSING OF THIS GRANT.

A. GEMA/HS will close each subaward after receiving all required final documentation from the Subrecipient. If the close out review and reconciliation indicates that Subrecipient is owed additional funds, GEMA/HS will send the final payment automatically to Subrecipient. If Subrecipient did not use all the funds received, GEMA/HS will recover the unused funds.

B. At the completion and closure of all Subrecipient's projects (subawards), GEMA/HS will request the Subrecipient to Certify the completion of all projects (subawards) in accordance with the grant terms and conditions to state there are no further claims under this subgrant.

C. The closeout of this Grant does not affect:

1. DHS/FEMA or GEMA/HS' right to disallow costs and recover funds on the basis of a later audit or other review;

2. Subrecipient's obligation to return any funds due as a result of later refunds, corrections, or other transactions;

3. Records retention requirements, property management requirements, and audit requirements, as set forth herein; and

4. Any other provisions of this Agreement that impose continuing obligations on Subrecipient or that govern the rights and limitations of the parties to this Agreement after the expiration or termination of this Agreement.

XII. INDEMNIFICATION.

A. Part 200 (entitled "Contract Provisions for Non-Federal Entity Contracts Under Federal Awards"). See the Preparedness Grants Manual Section 6.6, which is incorporated by reference, for information on procurement integrity.

B. As required by 2 C.F.R. §200.318(i), the Subrecipient shall "maintain records sufficient to detail the history of procurement. These records will include but are not necessarily limited to the following: rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price."

C. As required by 2 C.F.R. §200.318(b), the Subrecipient shall "maintain oversight to ensure that contractors perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders." In order to demonstrate compliance with this requirement, the Subrecipient shall document, in its quarterly report to GEMA/HS, the progress of any and all subcontractors performing work under this Agreement.

D. Except for procurements by micro-purchases pursuant to 2 C.F.R. §200.320(a)(1) or procurements by small purchase procedures pursuant to 2 C.F.R. §200.320(a)(2), if the Subrecipient chooses to subcontract any of the work required under this Agreement, then the Subrecipient shall forward to GEMA/HS a copy of any solicitation (whether competitive or non-competitive) at least fifteen (15) days prior to the publication or communication of the solicitation. GEMA/HS's review and comments shall not constitute an approval of the subcontract. Regardless of

GEMA/HS' review, the Subrecipient remains bound by all applicable laws, regulations, and agreement terms. If during its review GEMA/HS identifies any deficiencies, then GEMA/HS shall communicate those deficiencies to the Subrecipient as quickly as possible within the seven (7) business day window outlined above. No. 115-435 (2019) (Evidence Act), PUBL435.PS urges federal agencies to use program evaluation as a critical tool to learn, improve delivery, and elevate program service and delivery across the program lifecycle. Federal agencies are required to specify any requirements for recipient participation in program evaluation activities (2 C.F.R. § 200.301). Program evaluation activities incorporated from the outset in the NOFO and program design and implementation allow recipients and agencies to meaningfully document and measure progress and achievement towards program goals and objectives, and identify program outcomes and lessons learned, as part of demonstrating recipient performance (2 C.F.R. §

200.301).

Evaluation costs incurred during the period of performance are allowable costs (either as direct or indirect) in accordance with 2 C.F.R. § 200.413.

Recipients and subrecipients are also encouraged, but not required, to participate in any additional evaluations after the period of performance ends, although any costs incurred to participate in such evaluations are not allowable and may not be charged to the federal award.

M. The Subrecipient shall provide additional program updates or information that may be required by GEMA/HS.

DESCRIPTION

This contract will support the migration of the County's Commvault enterprise backup solution to a Software-as-a-Service (SaaS) platform. Transitioning to this model will allow the County to decommission the existing Commvault environment at the Bay Creek site, which is currently maintained as an additional disaster recovery (DR) copy. By moving to Commvault's cloud-based platform, the County will retain secure backup copies within Commvault's cloud environment, enabling faster and more efficient disaster recovery operations, particularly in scenarios where restoration outside of Gwinnett County is required.

In addition to improved recovery capabilities, this migration will strengthen the County's overall data protection posture. The SaaS platform provides layered security features, including ransomware protection, advanced automation, integrated threat intelligence, and air-gapped isolated data copies. These capabilities enhance resilience against evolving cyber threats while improving operational efficiency and reducing the complexity associated with maintaining on-premises backup infrastructure. Overall, this contract represents a strategic investment in modernizing the County's backup and recovery capabilities while improving security, reliability, and disaster recovery readiness.

MEMORANDUM

TO: Chairwoman
District Commissioners

FROM: Jenny Carter
Acting County Attorney

SUBJECT: GCID 2026-0534 – Modification of Intergovernmental Agreement – Norcross TAD

DATE: April 20, 2026

ITEM OF BUSINESS

Approval/Authorization for the Chairwoman to execute a Resolution Approving a Modification of the Intergovernmental Agreement between the City of Norcross, Georgia, and the Gwinnett County Board of Commissioners concerning Gwinnett County's participation in City of Norcross Tax Allocation District Number One – City Center East.

BACKGROUND AND DISCUSSION

On April 1, 2016, the City of Norcross and the Gwinnett County Board of Commissioners entered into an Intergovernmental Agreement (IGA) setting forth the terms and conditions by which the County consented and agreed to the inclusion of County ad valorem taxes on real property within City of Norcross Tax Allocation District One – City Center East (Norcross TAD) in the computation of the tax allocation increment for the Norcross TAD. The 2016 IGA, as amended by a Modification approved on December 6, 2022, provides for the commencement of significant projects funded by the tax allocation increment by December 31, 2024, unless the County waives the deadline by resolution. The City of Norcross has requested that the deadline be waived and that the IGA be modified to allow significant projects to be commenced by December 31, 2032. The IGA would also be modified to adjust the termination and periodic review dates accordingly. The Resolution which is on the agenda for your consideration waives the December 31, 2024, deadline and approves a Modification of the Intergovernmental Agreement that amends the IGA to reflect the date changes requested by the City of Norcross. All other provisions of the IGA will remain the same. The Modification has already been approved by City of Norcross.

Should you have any questions concerning this matter, please contact me at 770.822.8710.

3.9 **TAD Project Financing Limit.** Unless otherwise authorized by the County in writing, no privately developed Project shall receive benefit of the County Tax Allocation Increment from either the TAD Special Fund or from the proceeds of TAD Financing in an amount which exceeds 15% of the total project value. This payment shall be made by the City to the County within 60 days after the end of the calendar year.

3.11 **Future Request to Include School Increment.** The parties specifically acknowledge that that the City may request the consent of the Gwinnett County Board of Education for the inclusion of certain ad valorem taxes levied for educational purposes on real property within the boundaries of the TAD in the computation of the Tax Allocation Increment for the purposes of paying redevelopment costs. If such request is made, the City shall provide the Gwinnett County Tax Commissioner with the appropriate information.

3.12 **Special Conditions, Stipulations or Requirements.** The City shall promptly notify the County in writing of any special conditions, stipulations or requirements imposed at any time or from time to time hereafter by any other taxing authority with respect to the Tax Allocation Increment and the TAD. If so elected by the County, the County shall be entitled to the benefit of any special conditions, stipulations or requirements imposed with respect to the Tax Allocation Increment and the TAD. The parties hereto hereby agree that this Agreement shall be amended or supplemented to provide for such special financial conditions, stipulations or requirements imposed hereafter if so elected by the County, and the City hereby agrees to enter into any such amendment or supplement to this Agreement required as aforesaid.

MEMORANDUM

TO: Chairwoman
District Commissioners

FROM: Jenny Carter JPC
Acting County Attorney

SUBJECT: GCID 2026-0559 – Amendment to Gas South District Operation and Management Agreement

DATE: April 27, 2026

ITEM OF BUSINESS

Approval/Authorization for the Chairwoman to execute a First Amendment to the Amended and Restated Operation and Management Agreement between Gwinnett County and the Gwinnett Convention and Visitors Bureau, Inc.

BACKGROUND AND DISCUSSION

Since the 1990's, Gwinnett County has partnered with the Gwinnett Convention and Visitors Bureau, Inc. ("GCVB") on the construction and management of facilities at the County-owned Gas South District. The current Operation and Management Agreement with GCVB (the "O&M Agreement") was approved in 2020.

On July 22, 2025, the Board of Commissioners approved a resolution expressing a commitment to partner with GCVB for the financing of the proposed renovation and expansion of the Gas South Arena and the construction of a new parking facility. In furtherance of that resolution, on November 18, 2025, the Board of Commissioners adopted a resolution approving the issuance of bonds to finance the project and committing up to $40,000,000 in available County moneys toward the project. It is anticipated that the bonds will be issued in June. To allow for construction of the parking facility to start prior to the issuance of the bonds, the proposed amendment to the O&M Agreement would allow the funds committed by the County to be available through GCVB's Renovation and Expansion Fund to pay invoices received by GCVB for the construction of the parking facility.

If you have any questions with regard to this matter, please do not hesitate to contact me at 770.822.8710.

FIRST AMENDMENT TO AMENDED AND RESTATED OPERATION AND MANAGEMENT AGREEMENT

This **FIRST AMENDMENT TO AMENDED AND RESTATED OPERATION AND MANAGEMENT AGREEMENT** ("Amendment") is made and entered into as of May ___, 2026, by and between **GWINNETT COUNTY** (the "County"), a political subdivision of the State of Georgia and **GWINNETT CONVENTION AND VISITORS BUREAU, INC.** ("GCVB"), a Georgia non-profit corporation, and is an amendment to the Operation and Management Agreement, dated as of April 1, 2001, as amended from time to time, most recently amended and restated in October of 2020 (as so amended, the "O&M Agreement").

W I T N E S S E T H:

WHEREAS, since the 1990's, Gwinnett County has acquired property and partnered with Gwinnett Convention and Visitors Bureau, Inc. ("GCVB") on the construction of facilities to create Gwinnett Center, a 118-acre campus now known as the Gas South District, that can accommodate a variety of events including concerts, performances, meetings, trade shows, conventions, banquets and celebrations; and

WHEREAS, in order to provide for the terms and conditions of operating and managing the Gas South District for the benefit of the citizens of the County, the County and GCVB have previously entered into the O&M Agreement; and

WHEREAS, to support the continued economic success of the Gas South District and to maintain the Gas South Arena as a state-of-the-art venue, GCVB is proposing to renovate and expand the Gas South Arena and construct a new parking facility (the "Project") and has engaged a team of consultants to advance the Project; and

WHEREAS, on July 22, 2025, the Gwinnett County Board of Commissioners adopted a resolution supporting the financing of the costs of the Project; and

WHEREAS, on November 18, 2025, the Gwinnett County Board of Commissioners adopted a resolution (1) approving the issuance of revenue bonds by the Development Authority of Gwinnett County to finance the costs of the acquisition, construction and equipping of the Project (the "Bonds") and (2) authorizing the payment of up to $40,000,000 from available moneys of the County for the payment of a portion of the costs of the Project (the "County Contribution"); and

WHEREAS, to enable construction on the parking deck portion of the Project (the "Parking Deck Project") to commence prior to the issuance of the Bonds, the Board of Commissioners has determined that it is in the best interest of Gwinnett County residents to make the County Contribution immediately available for the payment of a portion of the costs of the Parking Deck Project by utilizing the Renewal and Expansion Fund created pursuant to Section 7.05 of the O&M Agreement; and

WHEREAS, the parties desire to amend the O&M Agreement to provide, prior to the issuance of the Bonds, for the County to deposit that portion of the County Contribution as may be necessary to pay invoices for the Parking Deck Project in the Renewal and Expansion Fund;

NOW, THEREFORE, the County and GCVB, intending to be legally bound hereby, and for and in consideration of the premises and mutual covenants contained herein and in the O&M Agreement, do hereby covenant, agree and bind themselves for the purpose of amending and supplementing the O&M Agreement and it is hereby agreed that the O&M Agreement will be amended and supplemented as follows:

1. **Amendments.**

   a. Article I of the O&M Agreement shall be amended by adding the following definitions:

      "Gwinnett Center 2026 Project" shall mean proposed expansions and improvements (including related amenities) to the Gwinnett Center, including certain improvements to the Arena and the construction of a parking facility.

      "Gwinnett Center 2026 Parking Project" shall mean the parking facility portion of the Gwinnett Center 2026 Project.

      "Series 2026 Bonds" shall mean the Authority's Revenue Bonds (Gwinnett Center Arena and Parking Projects), Federally Taxable Series 2026 in the maximum principal amount of $172,000,000 approved pursuant to a Bond Resolution adopted by the Authority on November 5, 2025 and to be issued by the Authority during calendar year 2026 for the purpose of financing the costs of the Gwinnett Center 2026 Project.

   b. Article VII, Section 7.05 of the O&M Agreement shall be amended by deleting Section 7.05 in its entirety and replacing it with a new Section 7.05 to read as follows:

      Section 7.05. Renewal and Expansion Fund. GCVB agrees to create and maintain a special fund designated as the "Gwinnett Center – Renewal and Expansion Fund" (the "Renewal and Expansion Fund"). The GCVB Budget shall include an amount to be deposited annually (and GCVB shall so deposit) in the Renewal and Expansion Fund in order to maintain the sum of three million dollars ($3,000,000.00) in such fund. In addition to the funds to be deposited by GCVB, beginning on May 1, 2026, and continuing until such time as the Authority issues the Series 2026 Bonds, the County shall deposit up to $31,000,000 in the Renewal and Expansion Fund (the "**County Contribution**").

The parties acknowledge and agree that any such deposits by the County shall be made from, and are not in addition to, any funding that the County previously committed to the Gwinnett Center 2026 Project. The County Contribution may be made in installments in such amounts as are necessary for GCVB to satisfy its payment obligations related to the construction of the Gwinnett Center 2026 Parking Project. The amount of each such installment shall be determined on the basis of properly approved invoices that GCVB receives from its contractor for the Gwinnett Center 2026 Parking Project, Brasfield & Gorrie, L.L.C., and each installment shall be deposited by the County within seven (7) business days of its receipt of each such invoice. Expenditures shall be made from the Renewal and Expansion Fund only for the purpose of: (a) an emergency having a major effect upon the Center caused by some extraordinary occurrence which makes it necessary to use such funds for the alleviation or removal of such effects and an insufficiency of moneys exists in the Operating Reserve Fund to meet such emergency; (b) making replacements, additions, expansions, renovations and improvements and acquiring equipment and paying the cost of any architectural or engineering studies, surveys or plans and specifications pertaining to the future development or expansion of the Center deemed to be reasonable and in the best interest of the County and in accordance with Article III, Section 3.07(c) hereof; (c) making payments for operating and maintaining the Center to the extent moneys in the Operating Revenue Fund are not sufficient for such purpose; or (d) until such time as bond proceeds from the Series 2026 Bonds are available to pay same, payments of invoices for the Gwinnett Center 2026 Parking Project provided that such payments shall only be made from the County Contribution. Notwithstanding the foregoing, in the event revenues available to GCVB are insufficient to fully fund the Renewal and Expansion Fund requirements, the County may waive, reduce or adjust the GCVB Budget requirements for the Renewal and Expansion Fund for any particular fiscal year, to be applicable only to the fiscal year for which such waiver, reduction or adjustment has been given. GCVB shall provide periodic written reports to the County's Director of Financial Services which list all expenditures for items (a) through (d) in this paragraph. The report shall be provided annually unless requested more frequently by the County's Director of Financial Services.

2. **Applicability of Remaining Provisions.** Except as expressly modified by this Amendment, all provisions of the O&M Agreement shall remain in full force and effect and any capitalized terms not otherwise defined in this Amendment shall have the respective meanings provided for in the O&M Agreement.

3. **Governing Law.** This Amendment shall be governed by, and construed in accordance with, the laws of the State of Georgia.

4. **Severability.** If any provision of this Amendment shall be held invalid or unenforceable by any court of competent jurisdiction, such holding shall not invalidate or render unenforceable any other provision hereof.

5. **Execution Counterparts.** This Amendment may be simultaneously executed in several counterparts, each of which shall be an original and all of which shall constitute but one and the same instrument.

6. **Effective Date.** This Amendment shall become effective as of May 5, 2026.

IN WITNESS WHEREOF, the County and GCVB have caused this Amendment to be executed in their respective names and their respective seals to be hereunto affixed and attested by their duly authorized officers, all as of the date first above written.

On the motion of Commissioner _____, which carried by a __-__ vote, the following Resolution is hereby adopted:

A RESOLUTION APPROVING AN INTERGOVERNMENTAL AGREEMENT BETWEEN THE CITY OF MULBERRY AND GWINNETT COUNTY CONCERNING THE CITY OF MULBERRY'S UTILIZATION OF GWINNETT COUNTY'S 800 MEGAHERTZ RADIO SYSTEM

WHEREAS, Gwinnett County owns and maintains an 800 Megahertz (MHz) Radio System (the "System") that provides radio communications coverage for areas primarily within the geographic boundaries of Gwinnett County, Georgia; and

WHEREAS, the City of Mulberry has requested to utilize the System for communications, including interagency public safety communications; and

WHEREAS, the Board of Commissioners of Gwinnett County, Georgia finds that entering into an intergovernmental agreement with the City of Mulberry concerning the city's utilization of the System is in compliance with, and in response to, the requirements imposed by Senate Bill 333 approved in 2024 during the 2023-2024 Regular Session of the Georgia General Assembly ("Senate Bill 333") and Senate Bill 138 approved in 2025

SUBJECT: **ADDITION OF PARKS RUN INTO THE SPEED HUMP PROGRAM**

DATE: April 10, 2026

ITEM OF BUSINESS

The Department of Transportation recommends approval of the incorporation of Parks Run into the Gwinnett County Speed Hump Program.

BACKGROUND AND DISCUSSION

Property owners submitted a request to the Department of Transportation for the incorporation of Parks Run into the Gwinnett County Speed Hump Program. As provided in the Gwinnett County Code of Ordinances, Chapter 86-Special Assessment Districts, the requestor was provided with a petition package which included a map with a layout for the proposed speed humps. All complete petitions were returned to the Department of Transportation with a response that exceeded the required signatures from the property owners located within the proposed Special Assessment District. Therefore, the Department of Transportation recommends approval for the creation of a Special Assessment District for Parks Run and their incorporation into the Gwinnett County Speed Hump Program.

Thank you for your consideration in this matter. Should you have any questions, please feel free to contact me at 770.822.7433.

Re: Fiscal Year 2026 Local Maintenance & Improvement Grant (LMIG) Program - Local Road Assistance Administration funds (LRA)

Dear Mr. Arnhart,

Enclosed, please find an original copy of Gwinnett County Department of Transportation's 2026 Local Maintenance & Improvement Grant (LMIG) application for Local Road Assistance Administration funds (LRA) for your review and approval. These funds are being requested for the resurfacing of sixteen (16) segments of roads that total 17.85 centerline miles, consisting of arterial and collector roads throughout the County.

Our 2025 resurfacing program is funded by LMIG and SPLOST funds and is nearly complete with punch list work and final cleanup underway. Traffic signals upgrades funded by the 2025 LMIG-LRA funds are 5% complete. We have completed all 2023 and 2024 LMIG funded resurfacing of arterial and collector roads and submitted our Statement of Final Project Expenditures for approval.

If you have any questions, please contact Tom Whitlock, Resurfacing Construction Manager, for Gwinnett County about any of our current or potential LMIG roads.

Thank you,

Nicole Love Hendrickson
Chairwoman, Gwinnett County

REQUESTED ACTION

The Department of Water Resources recommends the increase of the above referenced contract with Cajenn Construction and Rehab Services, Inc., Southern Premier Contractors, Inc., and Vortex Services, LLC, from $16,000,000.00 to $20,000,000.00 for the period of August 21, 2025 through August 20, 2026.

The Department of Water Resources recommends renewal of the above referenced contract with Cajenn Construction and Rehab Services, Inc., Southern Premier Contractors, Inc., and Vortex Services, LLC, in the amount not to exceed $18,000,000.00 for the period of August 21, 2026 through August 20, 2027.

DESCRIPTION

This contract is used to rehabilitate stormwater pipe using cured-in-place pipe (CIPP) and centrifugally cast pipe technologies for pipes ranging in size from 12 inches to 120 inches in diameter. The use of trenchless rehabilitation methods is appropriate for the repair of pipes that have adequate capacity but have either degraded over time or have suffered damage. Trenchless rehabilitation technologies have many benefits including reductions in traffic disruption, impact to property, cost, and construction duration when compared to traditional open cut repair and replacement. Pipes are identified for rehabilitation through the stormwater assessment program and resident issues. The increase request is due to an increase in work output in order to use available capital funds to address the backlog of needed stormwater rehabilitation projects.
