Addendum No. 4
RP023-24
Yellow River Water Reclamation Facility Conversion (YRWRF) to
PLC-Based SCADA System Project

The following addition/changes modify Proposal No. "RP023-24 Yellow River Water Reclamation Facility Conversion (YRWRF) to PLC-Based SCADA System Project," Contract Documents, dated May 2024, as first advertised on May 22, 2024.

I. Revisions:

R1. Addendum #2, A13. Please replace with the following:

CAD and Model files are available on the Department of Water Resources ftp site. Access instructions to the ftp site are attached. Please be advised, files uploaded to the ftp site are automatically removed after 10 days.

R2. Addendum #2, A27. Please replace with the following:

CAD and Model files are available on the Department of Water Resources ftp site. Access instructions to the ftp site are attached. Please be advised, files uploaded to the ftp site are automatically removed after 10 days.

II. Questions:

Q1. Will the existing instrumentation be reused and there is no new instrumentation in new scope of supply, correct?

A1. That is correct, no new instrumentation is anticipated.

Q2. After searching for EC-3 Existing Process and Instrumentation drawing and can't find it. Does Gwinnett County have a copy that could be provided?

A2. The Process and Instrumentation drawings can be found on pages 177 through 188 in the RP023-24 INV document posted on the Purchasing website. [Bids and RFPs - Gwinnett | Gwinnett County](#)

III. Attachment:

A1. Instructions to Access the FTP Site

Acknowledge receipt of this addendum on the firm information page of the request for proposal.
Sincerely,

Brittany Bryant, CPPB
Purchasing Associate III
