

April 8, 2026

**ADDENDUM #1
IWQ 128078, Purchase of Drone**

Questions:

- Q1. For the specification that notes quoted drones should have 256 gigabytes of internal memory storage, would a drone that uses a SD card containing up to 512 gigabytes and 64 gigabytes of internal memory be acceptable?**
A1. Yes, the use of a SD card would be acceptable for memory storage alongside internal memory storage.
- Q2. Where is the fee schedule? Should quotes be submitted on this schedule?**
A2. The fee schedule can be found on the first page of the invitation to quote. Please use this form to submit your quote. Quotes should be submitted by April 14, 2026.
- Q3. There is only one line on the fee schedule. Can a separate line be created for optional equipment or warranty?**
A3. Please ensure that your quote submission meets the attached minimum specifications. Note that these specifications are the minimum requirement, so a platform that exceeds these requirements would be acceptable. Award will be made to the lowest responsive and responsible bidder. Finally, your quote should include all charges, including but not limited to the entire drone platform, freight, and warranty as outlined in the specifications. Total pricing should be listed on the sole line of the fee schedule.
- Q4. Do quotes need to include a narrative to address the scope listed on page two (2) of the invitation to quote?**
A4. A narrative is not required with your submission. This scope is to identify the intended application and describe the intended use. Quotes should be returned with page one (1), the fee schedule and page six (6) references.
- Q5. Are bid bonds required to submit a quote?**
A5. Bid bonds are not required for this solicitation.
- Q6. Is it acceptable to submit pricing using a company quote document?**
A6. Quotes should be submitted on the original invitation form.

This addendum should be signed in the space provided below and returned with your bid. Failure to do so may result in your bid being deemed non-responsive.
